### Chapter 1 : CBSE Revision Notes for class 12 Biology

*Here some tips available For you, about 12Th class racedaydvl.com to Prepare 2nd-year Biology to get Maximum Marks. Read Topic Before Class Lecture. This is the key, of understanding any class racedaydvl.coms show that students who read before taking a lecture, after this they perform 60% better who don't read.*

Chlorosis usually arises from short supplies of mineral nutrients in the soil. In higher animals how coordination is brought about? It is brought about in higher animals by nervous coordination and chemical coordination. Photoreceptors are electromagnetic receptors. These respond to stimuli of light for example in eyes rods and cones. The chief structural and functional unit of the nervous system are neurons but there are other cells in higher animals and in humans called neuroglia which make up as much as half of the nervous system. What are cranial nerves? In human there are 12 pairs of nerves which arise from the brain or lead to the brain these are called cerebral or cranial nerves. What is the effect of nicotine on coordination? It minimizes the action of acetylcholine on nicotine receptors so it is stimulant of nerve impulse. It increases the heart beat rate blood pressure and digestive tract mobility. Nicotine may induce vomiting and diarrhoea and even may cause water retention relation by kidneys. The early ethologists thought that animals sometimes respond instinctively to specific though often complex stimuli. Such stimuli came to be called sign stimuli. Thorpe defined learning as the process which manifests itself by adaptive changes in individual behaviour as a result of experience. Who has demonstrated and studied operant conditioning or conditioned reflex type II? This type of learning has been demonstrated and studied by Thorndike and B. Skinner a Harvard psychologist. How neuron fibres and cell bodies can be excited? The neuron fibres and cell bodies can be excited by small electric shocks mechanical chemical light and temperature stimuli. How plants respond to the stimuli? Regulating their growth and development in appropriate ways. Controlling their body functions through plant hormones or growth hormones. Which type of plants are said to be etiolated? If plants are grown without light they become extremely long and they fail to form chlorophyll. They are said to be etiolated. Many plants take on a yellowish hue when they fail to form chlorophyll in sufficient amounts. This condition is known as chlorosis. If plants are wounded they often develop masses of amorphous material with very poor differentiation known as calluses. Galls are growths on a plant that are induced by parasites and usually highly organized growth galls are tumors induced by bacteria. They are usually less differentiated than other types of galls. Define biorhythms or biological rhythms? In living things the behavioural activities occur at regular intervals which are called biorhythms or biological rhythms. What are diurnal rhythms? Biorhythms may occur showing periodicity of about hours. These are called circadian which means about one day so they are also called diurnal rhythms. If the biorhythms are less than or about days. What are plant hormones? The special substances produced by the plants which influence the growth and plant responses to various stimuli are called plant hormones.

### Chapter 2 : Biology Notes for Class 12 CBSE Board Download pdf

*These 12th class Biology Notes available topic wise. You can take these notes in pdf files. Best handwritten notes by best students.*

### Chapter 3 : 12th Class Biology Chapter 3 Coordination and Control Short Question Answer FSc part 2 notes

*CBSE Class 12 Biology Notes. Key Notes for Biology Subject for Class 12 Students are given here. Important topics of 12th biology are covered. These notes will provide you overview of all the chapters and important points to remember.*

### Chapter 4 : Biology Notes For Class 12 PDF download - TuitionHour

*Biology Notes For Class 12 PDF download. In this post, we are providing you NCERT Biology Notes For Class 12 in*

## DOWNLOAD PDF 12TH CLASS BIOLOGY NOTES

PDF format to free download. Notes are very important for effectively studying and scoring good marks.

### Chapter 5 : CBSE Class 12 Biology Notes | AglaSem Schools

The Biology class 12 chapter wise revision notes is sure to help you ease any stress before your examinations. The notes also contain all the tips and tricks to help you answer faster and understand concepts better.

### Chapter 6 : CBSE Class 12 Biology Syllabus for CBSE Board Examination - 19

CBSE Class Revision Notes and Key Points. CBSE quick revision note for class Physics, Chemistry, Math, Biology and other subject are very helpful to revise the whole syllabus during exam days.

### Chapter 7 : Biology Notes Class 12 - Updated As Per CBSE's Latest Syllabus

Open your video in VLC player or add '.mp4' extension at end of the video. Biology Notes for Class 12 CBSE Board Download pdf Biology Notes for Class 12 CBSE Board Download pdf, biology, zoology, biotechnology, biochemistry, mathematics, sciencedirect, environmental science, science, maths, genetics, cell, ecology, scientist, computer science, science games, microbiology, what is science.

### Chapter 8 : Biology Subject 12th Class FSC Part 2 Notes

Rajkumar Biology: A guide for 11th & 12th CBSE Students. Home Notes Downloads Videos Assignments Gallery Class XII. UNIT VI - Reproduction.

### Chapter 9 : 12th Class Biology Notes (All Chapters MCQs PDF) | MDCAT Guide

Biology notes for class 12 comprise of all the relevant concepts related to the theory part of the syllabus. These notes involve both the questions and answers which are most expected to appear in class 12 board examination.
