It was not going all dirty but enough to take your imagination to those dirty part that may make you unnerving. The book was about Daughter of Isis. I know that was obvious. Apart from that about Sons of Set, mythology connecting the pieces of the story, and finding secret behind necklace and forbidden love with bone chilling nail-biting thrill. The book is narrated by two main characters- Natti and Seth. I liked to read this book through their POV. Natti was having hard time in shifting to totally unknown city with Egyptian buildings and culture from which she was trying run away because it reminds her of her maternal heritage that had taken life of her mother and grandmother. Moreover it was the city of Sons of Set God of Chaos , bunch of chaotic rich people and their brats and one of them was our second main character Seth. So you see where this is going? Let me tell you about characters in detail and what I thought about them. Characters- In this book there were more antagonists than good characters and so less to like about characters. Oh later I came to know she was blogger too. Nattiâ€™ She was good throughout the book. Smart and beautiful and walking lie detector. She even knew how to take care of herself in wild parties. At some point she started to show her typical heroine side which was annoying at some point but overall she was good. Her father was cool. I liked him right from the first chapter but he had very less role to play. Sethâ€™ our second main character. Because most of the time I just wanted to punch him on the face. His friends were no better. His character development was good and I could understand him much better as I progressed in the book. Antagonistsâ€™ They gave tough time to our poor Natti. Of course what they did was highly unacceptable but as antagonist they were brilliant and created real chaos in the book. And final, my most favorite character of the book. Nothing like that happened. Anyway, that cat was smartest and coolest in the book. I so loved it. Conversation between characters was logical, realistic and not typical YA type or just meh. Two main things were best in the book and I will give all stars for. First and obvious, mythology. Second, tight tense grip of the book. The concept and mythology was amazing. I loved reading this story, the narration of it was very captivating. I remembered half of that story and rest I recalled after reading it. I got all answers I needed at that point and it was mesmerizing. There was lot of tightness in the book right from the beginning. The death of grandmother, coming to unknown, meeting son of Set and falling in love with him was enough to keep me on the edge all the time. The gifts of the antagonist made them so powerful and the things they did with those powers, the rituals they performed in temple was creepy and then worshiping Set made the darkness within them even more horrible. I was constantly worried for Natti. I knew from first few chapters where this story was going and I could guess what might happen. And I was right for most of the things. Discovering how author will write those turning points was fun and thrilling in the book. There was definitely turns but no okay, one twists. The story was pretty predictable till climax. The climax was the only thing that surprised me and events after that till the end. Even though, story was predictable I just enjoyed the book. I would have loved to see those graphics along with text. Second â€™ Characters specially Natti. Even though she knew she should not fall for him, she did exactly the same thing. I have this one question. Somebody might have done this intentionally yeah, my detective mind is working. Overall, interesting mythical stories, thrilling forbidden romance and scary chaotic antagonists. Oh and super-fast rocket speed book. I surely recommend this book to those who would love read this type of story.

Chapter 2 : A Daughter of Isis: The Early Life of Nawal El Saadawi, Saadawi

*The Daughters of Isis are the female auxiliary to the Ancient Egyptian Arabic Order Nobles Mystic Shrine, the Prince Hall affiliated Shriners.*

Vivid to Do not tell lies against your mother, the magistrates abhor this p When reading about ancient Egypt I find it easy to imagine myself among reeds alongside the river Nile, a soft breeze, gentle music, sipping beer through a straw, and this book has something of that easy and cosy air. Vivid tomb paintings give a picture of life that is not only idealised but also repeats stereotypes. Couples are always happy, clothes always white, the wife always plays a supporting role to her husband, the focus of these images is to show what the afterlife will be like rather than how life actually was, with abscesses view spoiler [ sand got into the bread so teeth tended to be abraded hide spoiler ] , irascibility, and colourful garments. But still, this is a comfortable and fascinating journey though life in Egypt until the Persians took over view spoiler [ and after them the Macedonian Ptolemies view spoiler [ and after them the Romans view spoiler [ and after them the Arabs hide spoiler ] hide spoiler ] hide spoiler ]. And I suppose the concept of citizenship functions on the basis of giving rights to a few while excluding others, monarchy is at least an inclusive idea, underneath the top dog everybody is equally subserviant. However because of this it is all the more curious that women on the whole did not hold positions of authority, one lady has been found who held high office for the Pharaoh in Old Kingdom Egypt - but the duties appear to have been carried out by her husband. She discusses the six women who to differing degrees were or may have been either co-rulers or sole rulers. Six is not many over the years considered in this book, although it compares favourably maybe with Ancient Rome where female Emperors numbered none. Women were expected to have roles related to the household, the convention in art was to depict women as lighter skinned than the men in deference to the idea that they spent most of their time in doors, brewing and bread making, or supervising brewing and baking if they were of higher class. However from tomb paintings we see that women were also involved in all types of farmwork apart from ploughing. Outside of the home in terms of professional occupations women were musicians and mourners. While upper class women might have a role supervising others on behalf of Pharaoh or one of the many gods. Among the curious habits of the Egyptians is that they were keen shavers, using flint razors and both men and women of the upper class cut their hair short or shaved their heads and wore wigs, which apparently helped them keep cool during the day and warm at night. Delightfully there was a specialisation in craft-work in producing tissue thin jewellery for the grave, this was too thin and delicate to be worn in life, but the belief seems to have been that the same magic that would revive the dead into the happy after-life, give life to the statues of farm animals in the tomb, would also bulk up that jewellery into robust pieces suitable for everyday wear and enjoyment. Again as is always the way, the Amarna period, when the Pharaoh Akhenaten with his wife Nefertiti sponsored a radically different style of art as part of their switch to the sole worship of the Aten stands out as exceptional. Perhaps because is so different in the context of Egyptian history that it can be discussed as a separate period. To my surprise there is not much in the way of Pharaonic palaces. The business of sibling marriage is also something that gets lost in translation, the ancient Egyptians did not have a great many words for gradations of kin, so Tyldesley argues that some sisters may have been half sisters at best. Everybody, irrespective of consanguinity, liked pyramids. For parties bread might be baked in a pyramid shaped mould, women might wear triangular shoulder pads, and guests could wear cones of pomade on their hair view spoiler [this made their clothes greasy, but I suppose if somebody else was going to scrub them for you in the waters of the Nile you might not be so inclined to worry about that hide spoiler ]. Finally Tyldesley discusses religion. A difficulty is knowing how people actually practised their faith as opposed to which gods dominated the landscape with their temples. The famous national gods developed out of a messy mass of originally purely local gods. I imagine there was a lot of scope for local cults or belief in local gods to continue on an unobtrusive level. Tyldesley throughout quotes a Victorian woman who recorded her impressions of Egyptian village women at the turn of the nineteenth century to cast light on the kind of ritual practices and believes that can exist at the household level. And for many, apart from the absence of beer and the replacement of linen by

cotton, their lives would not have have been very different from those of their distant forebears.

Abbreviations used should be pronounced in full when addressing the officers: Commandress - Illustrious Commandress 1st Lieut. Commandress First Lieutenant Commandress 2nd Lieut. Commandress " Second Lieutenant Commandress 1st and 2nd Cere. The officers will take their stations and regale themselves. Commandress, you will announce that I am about to open this Court for the dispatch of business. You will announce the same to the 2nd Lieut. Commandress, and she to the Daughters, that all may be duly informed as to our purposes. Commandress is about to open this Court for the dispatch of business. You will announce this to the Daughters so that all may be duly informed as to our purposes. Commandress, the Mystic Pass has been satisfactorily given by all. Inside Spy, you will inform your companion, the Outside Spy, that I am about to open this Court, direct her to guard accordingly. Inside Spy closes the door and raps oooo which is answered by the Outside Spy. Commandress, we are guarded Ill. Inside Spy, how are we guarded? Our Father, we bring this meeting into your presence knowing that your loving care as around us and that your will br us and this organization is only for good. May all our work here reflect the loving kindness which we have for You and for each other. May we each feel the deep sense of duty that goes with our obligation for service, and may we never fail to do our best. Attend to the giving of the Signs. Cross both arms above the head, the hands open, palms outward. Raise right hand perpendicularly, palm of hand forward. Answer to Warning Sign by one seeing the sign. Raise right hand perpendicularly, back of hand forward. Right forearm perpendicular, balance of arm horizontal, fingers extended, then swing the hand three times. The words of Distress: A Daughter of the Desert. I now declare this Court open for business. What is the cause of this confusion at the door of our secret temple? Inside Spy, opening door: What is the cause of all this intrusion? We have made a captive. Ill Commandress, our trusty spies have made a captive. From whence does she come and what is her desire? She is the nurse of the youthful Horus, she has escaped from the wrath of Typhon and desires to find refuge with the Daughters of Isis. Admit her, but see to at that she does not reveal the secret of the entrance to our secret temple. Oriental Guide goes to inside of door and when the Candidate is admitted, takes her arm and conducts her around the Court five times, then causes her to kneel at the altar Music and singing during the circumbulation. You will find this a very pleasant and beautiful degree. There is an obligation you must take before you become a Daughter of Isis I suppose that you are willing to take it? Candidate, prompted by Oriental Guide: Yes, I am walling on the honor of a woman to become acquainted with its mysteries.
