Chapter 1 : Ebook Textbook for Study - racedaydvl.com

This bar-code number lets you verify that you're getting exactly the right version or edition of a book. The digit and digit formats both work.

It is designed to help students think clearly and critically about sociological issues, concepts, and methods. Questioning is at the heart of this approach, and as students read this book they are encouraged to become part of the sociological enterprise—rather than remain passive observers. Every element of the text is designed to challenge students to evaluate social issues and, guided by the sociological imagination, to clearly formulate their own positions. By asking questions that demand sociological and creative thought, students are reminded that their conclusions and decisions, as well as their non-decisions and inaction, may have important social consequences. New to this edition: This book is accompanied by a learning package designed to enhance the experience of both instructors and students: The true-false, fill-in-the-blank, matching, and essay questions are all referenced by section. Available for most learning management systems, this cartridge contains the test questions and Companion Website material that accompany *Society in Focus: An Introduction to Sociology, Eighth Edition*. This cartridge allows for better integration of the materials with your course and makes it easy for student test results and graded assignments to flow into instructor gradebooks. The Enhanced eText allows students to access their textbook anytime and anywhere they want. The eText for *Society in Focus: An Introduction to Sociology, Eighth Edition*, features direct links to flash cards, self-quizzes, and additional activities designed to enhance the concepts in each chapter. The Enhanced eText can be purchased at www. Accompanying the text is an open-access Companion Website designed to reinforce the main topics. For each chapter, flash cards, self-quizzes, and additional activities help students master the information they learn in the classroom. Students can access the Companion Website from their computer or mobile device at www. Exams can be created offline or moved from one LMS to another. Respondus LE is available for free and can be used to automate the process of creating print tests. A dozen activities—such as flash cards, crosswords and quizzes—engage students with course content in an individualized way. Students can access StudyMate activities using computers, smartphones and tablets. StudyMate also integrates seamlessly with the most popular learning management systems.
