

Chapter 1 : The Virginia School of Hair Design

Beauty of Virginia Paperback - October 1, by Parke Shepherd Rouse (Author) Be the first to review this item. See all 2 formats and editions Hide other formats.

How do I become a cosmetology, barber, or nail technician apprentice? How do I contact the Board office? Will I be able to speak directly with a Board member? Additionally, if you have information that you would like to mail to the Board, please send it to: They come into the Board offices for Board meetings and hearings, but are not here on a daily basis. Board office staff members can answer your questions and are trained to process all information that comes into the Board office. Please do not contact Board members directly. May I use my license from another state to practice in Virginia? What about applying for a temporary permit? State law prohibits any person from practicing or offering to practice barbering, cosmetology, nail care, waxing, tattooing, body piercing, or esthetics in the Commonwealth without a Virginia license. A temporary permit to work under the supervision of a currently licensed practitioner may be issued to applicants for initial licensure who are eligible and scheduled for examination. Cosmetologists, nail technicians, and barbers: Estheticians please refer to Section 18 VAC of the Esthetics Regulations for information on temporary permits. Do you accept scanned applications and supplemental documentation by e-mail? Yes, we strive to make the application process as fast and convenient as possible. Make sure that the scans or photos are high quality and easy to read. We cannot accept scans or photos of poor quality that are crooked, blurry, cut off, shadowed, etc. The resolution must be good enough to show clearly all text, images, markings, and seals visible on the original paper document. Essentially, when printed, the image must look like a photocopy of the original application or document. Remember to include all pages of multi-page documents and both sides of double-sided documents. If a scanned document is not acceptable, we will request a new, higher quality image or ask you to send it to us in a different way such as by fax or regular mail. What if I have a criminal conviction? State law requires the Board to evaluate applicants with past convictions on a case-by-case basis to determine whether their criminal history is related to the profession. B of the Code of Virginia. Only the full Board, voting in public session at a regular meeting, can make the decision to deny an application for licensure. If you have a criminal conviction, you must submit the Criminal Conviction Reporting Form , along with a state police criminal history report for every state where you have convictions. Once the Board receives this information, the Board may request additional documents from you pertaining to the conviction, and you may be required to attend an Informal Fact-Finding conference. What is an Informal Fact-Finding Conference? It is an opportunity for an applicant or licensee to present evidence and provide the Board with information relating to their case. B of the Code of Virginia, to assist its deliberations about whether the criminal history is related to the profession and if a license should be issued. The IFF will be conducted by a presiding officer a Board member, former Board member, or Department staff person ; a court reporter will be present to transcribe the proceedings; and you may bring any witnesses you wish. You may also submit additional documents, including letters of reference. The IFF conference is your opportunity to provide your input to the Board. You do not need to have an attorney although it is certainly your right to be represented by counsel if you choose. After the conference concludes, the presiding officer will make a recommendation to approve or deny the license application. This recommendation will be presented to the Board at its next regularly scheduled meeting, along with all of your documents, and a copy of the transcript from the IFF conference. You will receive a copy of the recommendation prior to the Board meeting. At the Board meeting, when your case is called, you are allowed five minutes maximum to address the Board on whether you agree or disagree with the recommendation, and why. You cannot present new evidence or information at the Board meeting. The Board will then consider all of the information and vote to approve or deny your application. The IFF process is lengthy and takes several months because it includes application review; drafting a referral memo; mailing the hearing notice and scheduling the IFF; conducting the IFF; writing the recommendation; and then waiting for the next scheduled Board meeting. How do I obtain licensure in another state? Contact the state or jurisdiction in which you are seeking licensure. That state might request proof of your Virginia

license, which you can request from the Board using the Certification Request Form. I need a letter of certification quickly. If I come into the office with the certification fee, can you process it the same day? Although Board staff makes every effort to send letters of certification out in five business days, our official turnaround time is 30 days. Certifications are processed in the order they are received. How do I transfer my license from another state to Virginia? Examination requirements for licensure by endorsement are based on examinations previously completed in other states. However, if you originally obtained licensure in a jurisdiction other than the state where you currently hold a license, the Certification of Licensure should come from the original jurisdiction where you completed your training and exams. Please refer to the Virginia regulations for the hours of instruction and training required to qualify for licensure. What do I need to do? Send in the renewal fee, make checks payable to the Treasurer of Virginia, and include your license number on your check. If you have had a change of address, also complete, print, sign and submit an Address Change Form. Mail this information to: My renewal payment was one day late and I have always paid on time. Can you waive the late fee? Staff cannot waive the fee. Do I still have to pay a late fee or reinstate my license? Board regulations state that failure to receive the renewal notice does not relieve the licensee of the obligation to renew. Does the Board office use the date of receipt or the postmark date to determine whether an application or renewal was received on time? The date the application or renewal was received in the agency determines whether it is on time, not the postmark date. If the renewal fee is received after the due date, you will be required to pay the reinstatement fee. If the reinstatement fee is received after the due date, you will be required to apply as a new applicant, meeting all current requirements. What do I need to do to notify the Board? The alternative is to complete, print, sign, and submit an Address Change Form to the Board office by mail. Unless updated online, all Address Change Forms must be received by the Board in writing. When providing a post office box as the mailing address, it must be accompanied by the physical address. All name changes must be received by the Board in writing. Individual name change requests must be accompanied by a copy of a marriage certificate, divorce decree, court order, or other official documentation that verifies the name change. Do I need a license to offer waxing services? Individuals performing waxing services must hold a wax technician license, cosmetologist license, or esthetician license. Can a nail technician provide waxing services? A nail technician license does not authorize the performance of waxing services. A nail technician must also be licensed as a wax technician in order to provide waxing services. Are electrologists licensed in Virginia? Electrolysis is an unregulated profession. Electrologists are not licensed in Virginia. Do tattoo parlors that offer body piercing services also need a body piercing salon license? Yes, tattoo parlors are not authorized to provide body piercing services. A body piercing salon license is required for businesses that provide body piercing services, and individuals properly licensed as body piercers must perform the work. Do cosmetology salons that offer esthetic services need an esthetics spa license? Cosmetology salons may offer esthetics services, but not master esthetics services. An esthetics spa license is required for businesses that offer master esthetics services provided by a licensed master esthetician. Do I need to be a licensed practitioner barber, cosmetologist, etc. No, facility ownership does not require a practitioner license. Provided you will not perform any services, you do not need an individual practitioner license to open a business. Can I provide cosmetology services in my home? Yes, provided you 1 hold both a current cosmetologist license and a current cosmetology salon license and 2 comply with Board regulations as well as all other federal, state, and local laws and ordinances including Department of Health regulations. How do I become a tattooer or body piercing apprentice? Apprenticeships are conducted through the Department of Labor and Industry. You must contact the Department of Labor and Industry directly to receive information regarding becoming an apprentice.

Chapter 2 : VaNaturalBeauty

Great Falls Park in Virginia is nothing short of sheer beauty and is only 15 miles from Washington, D.C. This hidden gem is actually acres full of nature trails and the best view of the falls can easily be seen down a short walk of just a few minutes.

Imagine a career where you can express yourself creatively and help others look and feel beautiful. Our Cosmetology classes prepare you to work with clients in real salons. Our cosmetology program is more than just a beauty school. It is a place where you can explore your passions, connect with others and hone your technical skills. The Virginia College Cosmetology program offers a supportive, hands-on learning environment that can prepare you for success. Learn How to Become a Cosmetologist Becoming a cosmetologist means working with your hands, expressing yourself and engaging with clients. It takes training and practice to produce beautiful, desirable results. Get step-by-step training for hair-stylist jobs with Pivot Point. Many of our cosmetology programs use a special learning tool called Pivot Point. It is an internationally recognized cosmetology curriculum that utilizes a hands-on, step-by-step approach to cosmetology techniques. This training method can help you develop a solid, practical foundation in professional hair styling and beauty techniques. Our instructors lead by example with visual demonstrations. They will coach you through processes and help you develop an eye for style. We have labs dedicated to hands-on practice where you can work to master the techniques of hair styling, nail art and cosmetic skin care. I get to enhance people and make people feel better, which makes me feel better. Carlee, Graduate Cosmetology Classes for Aspiring Beauty Professionals Through your cosmetology classes, you will have the opportunity to become more a creative and confident beauty professional. Your courses work together to prepare you for a career as a hairstylist, nail technician or esthetician. Our goal is to help you build a novice stylist portfolio and equip you with the fundamental knowledge you need to succeed in the field. Your cosmetology training leads up to the moment you are behind the chair working with a real client for the first time. You will have the support and supervision of a trained instructor to guide you along the way. This hands-on experience can help you gain a better command of the professional tools, products and techniques used in salons. Repetition will help you master more advanced skills and build confidence. We have salon clients of all ages and from different walks of life. This will allow you to refine your technical skills and challenge yourself creatively. You can give clients something to smile about – a great hair day, beautiful nails or smoother skin. Artful, attentive service takes practice, which is why you will continue to train in the salon until graduation. We help prepare you with the training and the tools you will need to pursue entry-level positions in the field. Our Career Development team can help you build your cosmetology resume, give you interview pointers and help you begin your job search. You will continue to have a support team with the connections and research skills to help you explore the job market. We maintain job-placement relationships with local salons and hairstylist employers, as well as national partners that include:
