Gentlemen who cannot atcer. The Books forming this Collection have been selected with great care as to their condition, and comprise some of the choicest specimens of binding by Bedford, Riviere, Hayday, Matthews, Pawson and Nicholson, and other eminent Binders. No Books have been admitted from my stock, or from any other source, and with the exception of a few volumes, none have ever been offered by me at private sale. The quotations of prices affixed to a large portion of the books, have been taken from priced Catalogues of the most prominent sales that have occurred in this city, and elsewhere, within the past ten years, and apply to copies similar in condition, unless otherwise stated. The comparison of the fluctuations in the prices of many of the volumes, together with the uniformity of those realized by others, will it is hoped, be of interest to the Collector. A catalogue of a scarce and valuable collection of books, in various languages, arts, and sciences: instructive and entertaining: consisting of history, biography.

Wholesale value what the dealer will pay on that day Make your own Inventory Recommended only for those with stamp knowledge If you have some knowledge and experience in stamp collecting, you have an edge when selling a stamp collection. Start by preparing an inventory or list of your stamps. The most common method of preparing a collection for sale is by marking in pencil the catalog value keeping in mind that the catalog value is a guide and may not represent the true market value of each stamp or row of stamps in the margin of the album page, according to one of the current stamp catalogs. It is important to note that many U. Methods of sale There are several methods of sale to be considered. The appropriate method depends on the nature of collection, the value of the material, the preference of the person selling the collection and sometimes the geographical location of the sale. Direct Sale to a Dealer Selling to a dealer has two advantages. The seller receives an agreed amount of money immediately and there is no fee. Consignment to a Dealer The seller can place the stamps with a dealer on consignment. The seller should ask for an itemized receipt, a minimum price should be set, and payout terms should be arranged before the collection is consigned. If possible, the seller should have photographs of any expensive stamps in the collection, and these should be made part of the receipt. A time limit, in writing, should be placed on the sale and on the payout. Consignment to an Auction House Auction offers the greatest potential for the highest sale price. There may be a wait of a few months, between the time of consignment and the date of the next auction. On a consignment of sufficient value, most auction houses will, at the time of consignment, give a cash advance against the estimated sale price. Outright Sale to an Auction House This is the same as an outright sale to a dealer. Placement in a Mail Sale Consignment to a mail sale can be a way to dispose of a large number of items with a smaller selling price. Fees vary and the seller should inquire about all charges. Private Treaty Retail dealers and auction houses often act as agents to offer collections in their entirety for sale privately. Sell at a Stamp Show Take the collection to a local regional stamp show. There you can show it to several potential buyers at one time and obtain the highest price offered. Where Should It Be Sold? When the decision has been made as to the appropriate method of sale for the collection, the seller needs to have assurance of the sound reputation and financial responsibility if any dealer or auction house. The seller should ask for references, and should contact the American Stamp Dealers Association to ask whether the dealer is a member in good standing. Most members display the ASDA sign of membership in ads. Other Options You might consider keeping the stamp collection. Throughout the years stamps have increased in value. You could try to add to the collection and enjoy the hobby. It is one which can be shared with children and grandchildren. You can also visit a local stamp club and make friends while you learn about stamp collecting and get to know your local ASDA stamp dealers. When the market is good, a collection will bring a higher price. When money is tight, it may be beneficial to wait to sell. How to store your stampsâ€â€until you decide to dispose of them The condition of your stamp collection affects the final sale price because buyers all seek stamps in sound condition. Postage stamps do not bring top prices if they are torn, creased, mildewed, stuck together, pasted down or damaged by moisture. Therefore, during the time that you are determining the value of your collection, you should take the following precautions. Storage Keep your stamp collection at dry, moderate room temperature. Avoid attics or basements, since temperatures are both hot and cold, or dampness damages stamps. When storing stamp albums, place them in an upright position. Do not stack them one on top of another since the weight of other books will tend to make stamps stick. Condition If any of the stamps are stuck together, do not attempt to separate them because you may do damage in the process. Leave them stuck together until a professional stamp dealer can look at them and determine whether they can be separated safely. Do no remove any stamps that have been postally used on envelopes. If the stamps themselves have a value, they can have an even

greater value when left on an envelope. Leave the stamps in multiples, whether cancelled or unused, intact, since they are sometimes more valuable as blocks or sheets than as singles. In Short Selling your stamp collection is like any other business decision; consider all of your options, always get multiple opinions, plan carefully and be sure to do business with stamp dealers that display the ASDA logo.
