Claire Of The Wild Rose Inn, Jennifer Armstrong, So, there is apparently a book in between this one and the Civil War one, and it's set in and it's about a girl who wants to go to a women's college instead of getting married.

Claire does most of the work while her mother spaces out and dates Jack Handy, the ever-present foe of the Mackenzie family and former owner of the Ship tavern, which he sold and the new owner made into a speakeasy. We got a thirsty lady needs some service! Anyway, Hank Logan, Newspaper Man, comes across like a douchebag from the first as well, where he insists on dancing with Claire, gives her a nickname, and drinks her Coke for her, then calls her snobby. So Claire leaves and I fervently wished she would have left forever and saved us from the trauma of this book to mop up her completely-plastered brother and take him home. On the way home they see Mr. Trelawney with a bullet hole in his forehead. Murder will out, etc. Handy, predictably, tells him to screw off. This is not a thrilling mystery. Wink wink nudge nudge? Their plan is derailed when Claire finds her drunk-ass brother and has to lug him home again. I actually kind of wonder at a YA book that repeatedly portrays a year-old boy as a gigantic alcoholic. That file of the one of the oldest pieces of property in town, dating back to the s and therefore probably thick as a brick, is mysteriously missing! Run along, little girl! Oh, terrific, even better. Hank also fills Claire in on how the smuggling along the Marblehead coast has worked, and they figure out that Trelawney was doing itâ€”seriously? I thought we figured this out like fifty pages ago, why is this being presented as new information? This is like a mystery about goldfish. This is so bizarre. She gets back to shore just in time to see the police and a bunch of other people all converging on Swenson. Bob is there hollering about how Handy told him all about how to make a quick buck with a speakeasy, Mrs. Mackenzie is there hysterical looking for Claire, and Claire herself turns up just in time to accuse Handy of trying to kill Hank. She faints, quick fade to black, and everything is neatly sewn upâ€”bad guys go to jail, Handy goes with them, and Claire and Hank get engaged.
