The majority of my reading is now bargain-priced romance novels, I find it very restful after looking doing more technical stuff at work. Romancing the Duke is extra charming, with plenty of warm humor and character development. Isolde Ophelia Goodnight is orphaned at a young age and not provided for by her feckless author father who is famous for his well-known fairytale series. Seizing a last chance at independence when she arrives at Gostley Castle to claim an inheritance from an Earl who seems to be leaving castles to all his goddaughters instant series! As she arrives at the castle, Izzy faces some satiric gothic horrors out of Northanger Abbey. She makes the unfortunate discovery that the castle is actually still inhabited by Ransom, the Duke of Rothbury. It takes a little while for Izzy to realize that Ransom is blind, wounded by a duel gone wrong. Ransom is understandably hostile yet involuntary attracted to this young woman who shows up and announces that she now owns his house. This is the first book in the Bevelstoke series. Turner and Miranda become reacquainted for the first time since she was 10, and he finds himself suddenly intrigued by a grown up Miranda, yet tortured at the same time because he has no desire to enter into a relationship again. Some of the plot elements in this book were a bit predictable, particularly the events that led up to the happy ending. There are many witty moments, and all the characters are richly developed. I absolutely adore lady spies in historical romance books. I am also a fairly uncritical consumer of lady spy romances, but this one is very good. The Viscount in the title is Alistair Moncreiffe, who is an astronomer. He makes decisions about which parties to attend purely due to whose house has a good roof for astronomical observation. The spy in question is Charlotte Parnell, who has been trained to spy by her brother. He plays along and tries to catch her name, but she manages to disappear when his attention is diverted. They meet at a party later, and Charlotte proposes a fake engagement. Later, Alastair manages to rescue Charlotte when she finds herself unexpectedly dangling off the side of a building.
