Jeans will always be a thing, just like plaid always seems to be in our wardrobe rotation. The traditional prints may not be groundbreaking, but the styling is. With nods to our middle school uniforms, Cher Horowitz, and the iconic Burberry plaid, the sartorially with-it women of the world are giving us new ways to bring the pattern into. Some rely on subtlety, others layer on the look in multiple pieces and colours. In each of these 32 cases, the effect is refreshed. So, while the print is nothing new, you can certainly sell your friends on the new-ish appeal it has when worn with dad sneakers, rainbow-bright hues, and many, many mixed prints. Here, discover the ways to upgrade your plaid game. Work plaid on plaid with a coordinating set for a ladylike effect. Remix a traditional plaid with crisp white pieces for a fresh effect. Give plaid pants a cool upgrade with an off-the-shoulder top and stylish sneakers. Embrace the classic pattern in a bright new colourway. Toss on a plaid coat over everything for a statement-making outfit. Lean into a full-blown plaid look with a bold coat and checked pumps. Dress up a plaid mini with a trench coat and button-down blouse for classic vibes. For a small dose, play a pair of plaid shoes off of an outfit of mixed prints. In a boxy cut, a plaid suit takes on a more contemporary feel. Ground a floaty top and shorts with a plaid blazer for Fall. Give a plaid pattern the boho treatment in a flowing silhouette; then add a suede bag to drive it home. A chic plaid blazer lends baggy jeans some polish. A plaid miniskirt feels fashion-forward and nostalgic all at once. Keep things classic in a plaid button-down and trousers. Top a silky slip dress with a plaid blazer for the office. Mix plaid patterns when you pair larger checks with a classic kind of tartan plaid. Keep the rest of your look simple, but make a statement with a plaid coat. Top denim with a plaid coat for a Fall-feeling transitional style. Pare down bold plaid pants with a clean white overcoat. A plaid crop top feels a little less exposed with a coordinating jacket on top. Plaid in a subtle grey palette is easy for the office. Checks and stripes were made for wearing together – just embrace bold, contrasting colours. A plaid shirt dress is the perfect everyday Fall uniform. A plaid blazer really ties together casual pieces like biker shorts. Belt a plaid blazer over white denim to take your light jeans into Fall and Winter. Let a plaid button-down warm up a Summer day dress. Add interest to an all-black look with cool plaid outerwear. Stick to a neutral palette for an understated play on the print.

Chapter 2 : Contemporary Classics In Plaids & Stripes | Piece O Cake Blog

The nine traditional American quilt projects are reinvented in woven plaids and stripes. Using a mix of applique, piecing and foundation piecing patterns, these designs include "Pretty in Plaid", "Royal Plumes" and "Neapolitan Nights".

However, select these patterns in upscale fabrics such as silk and satin and you will add unexpected elegance to a home. There are four model homes to tour. In this model, stripes were used in the kitchen and dining room and plaids reserved for the cozy master bedroom. We envisioned a family with children who are preteens living here," says Bunston. Bunston likes to use a common-sense approach to decorating. In the kitchen, the dinette chairs are upholstered in a striped fabric to be different. These are simple slipcovers that are easy to do. We chose aqua and tangerine stripes for a light look and used this tangerine colour as an accent colour throughout the home. The pendant light over the breakfast table has small white shades. These shades complement the upholstered chairs just by being fabric. They soften the look of the iron and glass table. The dark espresso-toned cabinetry gives an upscale look because it looks like furniture and complements the dining room suite of the same tone. The dark colour easily hides smudge marks. In the dining room there are two types of upholstered chairs " rather than the predictable set of six. Four of them are wood framed upholstery in a stripe pattern, reminiscent of the stripes in the kitchen. Yet two chairs are armless slipper style, covered in a solid beige fabric to add interest. The chandelier above the table is a woven metal shade with a burnished gold leaf overlay. The dining room has a coffered ceiling that is emphasized with a band of colour that is the same tone as the walls. Two white Roman columns divide the dining area from the living area. In the ensuite bathroom, wallpaper was used that has a modern floral pattern of white and gold. A miniature Roman column adds a spa-like touch, as does the half-glass shower wall. White cabinetry and fixtures allow you to change your look whenever you like " they will suit any colour scheme throughout the years. A chair for reading or relaxing features a cushion in the same fabric to tie the look of the soft furnishings together.
