Cursed by a Happy Childhood is a warm, funny, bighearted collection of one dad's reminiscences about the kinds of lessons we all learn--sometimes the hard way, often without even realizing it--on the road to becoming a grown-up.

As a year veteran of the New York publishing world, Lennertz knew everything about books except how to write one. Now I have nothing to write about," Lennertz chuckles by phone from New York. I just sat down one day and started writing to my daughter and thought, geez, I have mostly only good things to talk about. The soundtrack of his life was never far from his thoughts as he assiduously avoided the usual parental topics sleepless nights, changing diapers, etc. It is slightly chronological, and I tried to pace it with some serious stuff and then quickly go back to a lighter piece. Things get slightly more serious as it goes on. I start with collecting comic books and end up talking about drugs and drink. Then some Beatles, she liked that. I played some Santana. Rascals; that was good. Then she kind of moved off of that at about 10 to 11, and found her own, and that was Britney Spears. I have no problem with pop music; I went through the Archies and the Cowsills. So Britney Spears I sort of liked," he says. Those lyrics are depressing. And I thought, OK. I had the whole debate. Do I want her to listen to this? And I said, you know what? He estimates he rewrote more than half of the essays, killed some entirely and substituted new ones under deadline. The five-month wait between final draft and publication proved excruciating. I had this moment of, oh my God, I hate this book! I finally said, Carl, relax. This is a sweet little book. Read through it, change what you can, and let it go. All along, I was thinking, how have I done, how have I done? In the end, I ended up learning from her. Cursed by a Happy Childhood.

Chapter 2 : Cursed by a Happy Childhood: Tales of Growing Up, Then and Now by Carl Lennertz

CURSED BY A HAPPY CHILDHOOD is Lennertz's first published work. It consists of short pieces, most of them no more than pages in length, which began as a kind of diary for his preteen daughter. The result is a mix of childhood memoirs from the s and s, observations and advice.

From what Ive seen, the best parts of life are always permanently cemented by great moments, flashbacks, so to speak. If youve read the entire book, youd know that I have a lot of special moments in my life and theres even more that I couldnt work into the manuscript. With that being said, this book to me is not only a work of art, but its also a testament to me and my readers that I pride myself in squeezing the best out of life no matter what the situation. It gives a clear explanation of the choices and decisions I and my generation battle with on a regular basis, and it shows that Im willing to work as hard as I need to in order to accomplish my goals. Even when the solutions seem outside of the box, Ill do whatever is necessary to improve or maintain my living conditions. Whether it be for work or for playtime, Ive found out that if I dont put percent into what Im doing, Ill never know how great my accomplishments could be. This book is one of the things in my life that Im most proud of. Through this book, I was able to explain how much friends and relationships in general can affect your life. This is what makes trusting God even more important. Ive had several times where Ive felt like I was in the wrong place or with the wrong people or with people that didnt really care as much as theyve led on. But through trusting God and finding some patience, life showed me that I was exactly where he wanted me to be. The love and loyalty my friends and family members have continually showed me is a true testament to that. If I wouldve given up on a few people that I thought about giving up on, I wouldve never known how great a particular relationship or two couldve turned out to be. So with that being said, my proudest accomplishment in this book is the fact that I have valued the people I was supposed to value the most and that they know Ive done everything in my power to shield them from lifes hard times as well. The funny part about me falling out with a few people I loved is that if I never had to feel alone, and these friends and family always protected me, I wouldve never known how strong I really was. Luckily for me, God put a lot of people in my life that were honest, intelligent, and sincere, and the bond that Ive shared with these people alone has made my life worthwhile. But through the trials and tribulations that rested solely on my shoulders, I was able to find my true inner strength. And from what Ive seen, Im a pretty strong individual! Still through all of the good and bad, looking at things from my friends and family members perspective, I was able to see the mistakes that I couldnt recognize; I was able to experiment with new ways to live my life better, and I was able to learn to appreciate the different thoughts and gifts that make us all special human beings. So to everyone that holds me down in Cleveland, Atlanta, and abroad, I sincerely love you and always will even after my death. Ive learned a lot about life in my brief twenty-eight years of existence, and I wish I could share everything Ive learned with everyone whos alive. And vice versa, I also wish everyone else could share their learning experiences with me. I think we all have things to teach each other. When youre able to somehow connect the different struggles and paths of totally different people, you can see that our differences are what let us connect the dots, so to speak. In other words, our differences help us learn more about each other and more about life. As a people, I dont think we embrace our differences too well, and thats something we all need to work on as a whole. Unfortunately, we cant undo our past mistakes, but we can take one day at a time to perfect our way of life. I hope that one day, we all can perfect our lives to a level that makes God happy and, at the same time, helps us live life to the fullest. Because certain Christians try to pressure certain beli.
