Erect on Demand is a new eBook created by Josh Harding. Available exclusively online, the eBook promises to teach you natural cures for erectile dysfunction. What is Erect on Demand? Instead of relying on pricey pharmaceuticals or expensive supplements, Erect on Demand claims to use ingredients that you can find anywhere online or at any health food store for an affordable price. So how exactly does EOD work? It claims to do all of these things using a blend of herbs and supplements that you can purchase from health food stores or online. You build your own capsules to create your own magical ED-curing supplement. Or, you can skip the capsule and just take all of the ingredients separately. So what exactly is this recipe? Instead, they simply work by raising nitric oxide levels. Nitric oxide is a powerful vasodilator. By boosting NO levels within your body, you can dilate your blood vessels, making it easier for blood, oxygen, and nutrients to spread throughout your body. Harding claims that one dose is enough to last for a whole 18 hours. At the age of 58, he was able to have sex for hours after trying this product just one time. When something comes from nature, it just has to be perfectly safe to use, right? Tobacco and cyanide are two natural products that can have devastating effects on the human body. There are plenty of harmful natural compounds out there. However, the amino acids, enzymes, and other ingredients recommended in Erect on Demand do not appear linked to any serious side effects. Erect on Demand includes a number of bonuses. In addition to the short core eBook, you get a number of other eBooks, including: All of the bonus eBooks listed above will also be delivered. TestoTruth is a testosterone booster supplement that contains a handful of ingredients that purportedly raise testosterone levels but are really linked to very few benefits. All purchases come with a 14 day money back guarantee. Who Wrote Erect on Demand? Erect on Demand was created by a guy named Josh Harding, not to be confused with the backup goaltender for the Minnesota Wild. Harding is 58 years old and has 2 adult children. As mentioned above, Harding claims that he discovered the cure to erectile dysfunction while vacationing in Peru. Harding published the eBook through a company named Altare Publishing. Erect on Demand makes enormous promises about curing your erectile dysfunction. In reality, ED can occur for a wide variety of reasons – not all of which can be cured using herbs and supplements. The treatment listed in Erect on Demand will work for some people, but not others. It may work on some people simply through the placebo effect – many ED problems have nothing to do with physical problems.
