

**Chapter 1 : Exploring the New Testament World - Thomas Nelson Bibles**

*Exploring New Testament Greek aims to cultivate a 'feel' for the Greek language and give insight into some central issues in New Testament study without a heavy investment of time and energy.*

Valuable tools for study or scholarship. Taking a telescopic view of the Bible, Exploring the Old Testament Book by Book and Exploring the New Testament Book by Book enable readers to see the big picture behind this Book of books, to see how the various parts of Scripture relate to one another. These volumes from gifted expositor John Phillips teaches the importance of taking a few steps back from Scripture in order to gain fresh insight into the message, meaning, and art of the Bible. This study covers first century Roman society and the situation of the churches in the period, the authorship of the letters and their style, and the context, structure and interpretation of the book of Revelation. Preface " Tell me, sir, " the sincere young woman inquired anxiously of the preacher, " What is the Bible all about? It is all about Jesus. From the story of the humble birth in Bethlehem as recorded in the Gospels, to the scene of the glorious exaltation as King of Kings and Lord of Lords as depicted in the book of Revelation, the subject is the same. At the beginning of this study of the New Testament, the student will do well to look for the Lord Jesus Christ and His teachings. Before a study of the books of the New Testament is undertaken in systematic fashion, two preliminary matters of great importance must be considered. The New Testament has a background which, when properly considered, will help to illuminate the books themselves. Chapter 1, therefore, deals with the three most important areas of this setting: This approach, sometimes called the " synthetic, " is vital to acquaint the student with the major divisions or parts of the New Testament and the unity of the whole. Having completed chapter 1, you, the student, are ready to investigate each book separately. Chapters 2 through 12 consider the respective writers and their writings--the purpose, outline, main content, and leading features. The attention of the reader is called to " Application Activities" at the end of each chapter and the bibliography at the end of the book. These serve at least a dual purpose: You will find that the " Discussion Questions" at the end of the chapters will be valuable for testing your grasp of the materials you have studied. The outlines, charts, and one quotation in chapter 11 have been taken from that work. On then to study. May it be done in the spirit of 2 Timothy 2: Dunnett Find Your eBooks Here€!.
