Do you know how this is possible in typing tests? Although there are several reasons behind such high scores in typing tests, there are two main reasons – a muscle memory and b practice, practice, and practice. The more you practice, the better muscle memory is achieved. At this stage, your fingers know where the keys are positioned in the keyboard. So, you do not need to look at the keyboard to type anything. A good typing speed will help you years after years by saving time, gaining higher productivity, ensuring efficiency, and many more. What is your typing tests WPM? Check your typing tests WPM from this typing word per minute test page. Get ready for tough typing What is touch typing? So, you must type without using the sense of sight to find the keys and use all your fingers instead of use a few fingertips and even nails to type. Expert typists are touch typists. The following sections will guide you to become a touch typist. Always practice typing to become an expert touch typist. Maintain the correct sitting posture for typing If your sitting position is not correct, this can be tiring. You should not only sit straight but also keep your back straight. Your chair should have proper support for your back. Feel free to place a small pillow between your back and your chair if your chair does not have any built-in cushion for your lower back. There should be minimum from 45 to 70 centimeters distance between your eyes and the screen. But you should not sit far away from your computer too. This will make hard to type. Place the screen in such a place that it is in the same height of your head when you look forward. As an alternative, you can adjust your chair if you are using an adjustable chair. When you keep your fingers on the keyboard, your elbow should be in 90 degree angle. When you type, you should feel comfortable and allow minimum strain to your shoulder, arm, and wrist muscles. Try to put your feet flat on the floor if it is OK with you. Your fingers should be just a little curved. Remember that you arms should always be relaxed. Typing on your lap is not recommended. Type at a desk or table. The place where you sit and type should be comfortable, well-lit, and well-ventilated. Watch this correct sitting position at a desktop Computer" video. Always follow the keyboard scheme Amateurs use the wrong fingers to press keys in the keyboard. But expects use the correct finger to press every key. It is hard to remember which finger you should use to press which key. But it is not a problem at all. We have a list typing practice exercises and typing test speed test online.
