All the new features, tips and guides Bookmark this guide to everything new in iOS Even though it looks just like iOS 9, a lot -- and we mean a lot -- of features are radically different. Wait -- read this first! If you already updated, you can temporarily fix the issue by powering your phone off, and powering it on again. Did you already try updating? Have an iPhone 5 or iPhone 5C? Even though iOS 10 is technically compatible with these older devices, we recommend taking a wait-and-see approach before updating your phone. If you have one of these devices, read this to find out more about the potential drawbacks of updating. If you have an iPhone 6 or newer, we recommend updating to iOS The update brings loads of new ways to use your phone, including these 10 features we love most. Prep your phone before updating. Your home button is different. You now have to click the home button to unlock your phone, but t his quick tip shows you how to change it back. We found 23 hidden features. Here are all 23 hidden tips. She can now hail an Uber, add suggestions to your Messages and more. Here are 11 things the new Siri can do. You can now delete apps! So we found a few ways to speed up iOS 10 running on older phones. All the major changes Control Center. This looks a lot different. Music shifted over to the right and there are now 3D Touch options. View two tabs at once? You can now use Apple Pay in Safari. Memories automatically organize your photos for you, Google Photos-style. You might hate the new lock screen. This guide will help you love it. Apple finally warmed up to widgets, which act like mini-apps in your lock screen. The new notification style makes it much less necessary to unlock your phone. Music gets a much-needed revamp and new features, like a setting that gets the app to automatically download songs you add to your library. The update makes your watch feel like a brand-new device.

Chapter 2 : Download Guide de l'Utilisateur de l'iPad pour iOS - Apple Inc. PDF - France Book

Modes d'emploi. Modes d'emploi dans d'autres langues.

Ever wanted to send some a secret message? Like in those movies. The message would only be revealed when they put it under this certain light. Well, you can do a version of it in the Messages app in iOS Sending a picture of your actual facial reaction to the message you just got. Call me old fashioned, but it just has its own charm. If you think so as well, the new Messages app in iOS 10 just made this a lot easier to do. The bold redesign means that you might have to make yourself familiar with basic features of the app once again. Shuffle Wondering how to shuffle songs from your library, from an album or from the Now Playing view? It also makes it easier to differentiate between songs downloaded to your device and the ones that are available for streaming. How to automatically download and manage music in the Music app in iOS 10 Optimise storage If you own a 16GB iPhone, storing music on it can be a particularly tough task to manage since you are likely going to run out of space sooner than later. To ease your pain, Apple includes a handy new Optimise storage feature in Apple Music in iOS 10 to make managing space on your handset easier. How to enable optimise storage feature in the Music app to free up space in iOS 10 Lyrics The updated Music app in iOS 10 now features built-in support for showing lyrics so you can sing along to your favourite songs easily. And some feature placement has been shuffled a bit. Including the Shuffle feature. Searchable objects The smarter new Photos app is capable of searching for people, objects, and texts and more in your photos. This might seem like a trivial feature, but it definitely comes in handy every once in a while. Think how easily you can pull up all the photos of a particular friend or family member by simply searching for their name in the Photos app. It can be a time, place, people you were with, or all of the above. Mail New features The Mail app in iOS 10 remains largely the same as before, but it does come with some major new features to help make managing your inbox easier.
