You stay with her anyway. Divorced six years after writing this, leaving his wife to raise the kids. We had nothing in common. I had nothing to say to her. But she was gorgeous. So I fucked her again. Owns six resident cats, and houses dozens of foster kittens throughout the year. I have to make up stories every night for my kids. Last night I made up one right on the spot for my daughters: Then he ripped off its claws. Then he chopped off its head. And it lived happily ever after. He pulled his pants down around his ankles. I started to rub his dick up and down when he told me I was doing it all wrong. I popped the biggest fucking boner. Some guys really know how to handle the goods. I even tried to ease her into it by sticking a finger or two up there but she freaked out and said she was uncomfortable. Finally, I asked her if she would do that to me. It got so bad that I tried to do it myself one night when I was in the shower. She led me down the hall and then she opened a door and we were in the bedroom of two gay guys who were in the acting troupe with her. Not his beloved Sam Kinison. It was Richard Simmons. Many people today lean toward the revisionist theory that homosexuality is biologically determined. In my opinion, homosexuality is just another way of denying adulthood. You extend the joys of your prepubescence. And a gross sign of immaturity. I believe homosexual behavior is not genetic but a deeply rooted defense mechanism that allows the human mind to ward off outside pressures. Like obsessive-compulsive behavior, alcoholism, or gambling addictions, homosexual behavior can be changed. But I love my wife and my wife loved me when I was a bum. And her parents treated me like a human being even though I disgusted myself. I wanted to be in radio but I had no voice, no delivery, nothing. But they treated me as if I was normal. She truly loves me. And true love is a hard thing to find, remember that. I know she would never betray me. Any woman I meet now I could never trust. Private Parts is the first book written by American radio personality Howard Stern. It was published on October 7, 1997, by Simon & Schuster, it is the fastest-selling book in the company's history.

I then read *Private Parts* soon after it was published, again not knowing much about Howard. I liked *Private Parts* a lot better than I did *Howard Stern*. I liked *Private Parts* a lot better than *Private Parts*. I enjoyed the first half of the book when Howard talked about his family and breaking into the radio business. Unfortunately, this was clearly meant to be read when it was published almost 20 years ago. Jay Leno, for instance, is praised in *Private Parts* as being a nice guy who was set up for failure by Johnny Carson when he took over the *Tonight Show*. Howard also addresses topical-for news stories and issues that are hard to comprehend in He describes a good amount of juvenile schtick that seems beneath him in I understand that the schtick is how he built his name and reputation, but I very much prefer the mellower Howard of today. Howard Stern fans Recommended to Eva by: I just like Stern Shelves: I started flying through these pages. I think you have to already find Howard Stern funny to like this though. There are scores of people who would be highly offended by even the "mild" stuff he says here. By even t I picked this up to read on a whim. By even the most mild pictures in the book too. I laughed numerous times, actually out loud. More than once I had someone look at me like I was nuts. I will admit that he does come off as full of himself. I enjoyed the parts where he talked about the FCC the most I think. Makes no sense to me. The letters from fans and from non-fans were awesome too! I loved how he stuck some little stories in from Allison and Robin- it was cool to her their thoughts on things too.

Origins[edit] In the early s, Stern experienced a rise in popularity as a radio and television personality. He first announced the film, which Stern claimed "came from nowhere Lawton was hired to write and direct the film titled *The Adventures of Fartman*. I looked like I had failed. In the following months, Stern entered an agreement with film and television content management company Rysher Entertainment , who wished to fund a film based on the book. Avildsen in September [6] and, in August , screenwriter Peter Torokvei , who was hired to complete a "production rewrite" of a script already prepared. Torokvei completed a draft, but it was not signed off. Torokvei estimated he had worked on as many as five redrafts with Stern, adding: Kirkpatrick claimed Avildsen wished for a "story of an underdog taking on the issue of free speech" a man against the system, whereas Kirkpatrick had the idea of a film "in the tradition of *Help!* Stern insisted he was not afraid, and felt the idea of someone other than himself playing the role would lead to "the biggest box office bomb in history". Stern agreed, and subsequently asked Reitman to come on board as producer and help develop a script. She described it as "very interesting" and travelled to New York City to observe Stern doing his radio show. When he took my hand, he was shaking. He was so vulnerable and scared. I saw something in his eyes that I loved. Right then, I wanted to do the movie. Stern found working with Thomas particularly enjoyable who collaborated well and had a calming effect on him during shooting. Auditions for roles began before Stern had accepted a final script. On October 8, , auditions for actors to play "a pre-teen, mid-teen and late-teen Howard" were held at the Palladium in New York City. The sessions were organised by casting director Avy Kaufman. Four scenes for the actors were set up: Stern preparing for a date while reciting a soliloquy on the human condition, a talk with his father on current events, making a prank call, attempting to hide the evidence after smoking in his bedroom. Principal photography began on May 2, Stern would do his radio show from 6: Make up would last three to four hours, followed by filming until as late as 9: Interior scenes, including the reconstruction of seven replica radio studios where Stern worked in his career, were reconstructed at the Silvercup studios. I was going crazy. This is a mistake. He recalled he had "no confidence" in his ability at that point and struggled with the concept of shooting a film to a set script. For the scenes that featured a young Stern in high school, filming was done at Union High School , which comedian Artie Lange , who was part of the radio show from to , graduated from. Stern recalled that porn star Jenna Jameson was so comfortable being naked on the set, she stayed without clothes when the crew were at the craft service table. However, the studio could not obtain permission to use the footage, so Letterman agreed to take part in a reenactment. Reitman then contacted Stern, informing him to avoid surgery until production was complete as Paramount owns his face. Around 45 minutes of footage was to be cut. Stern did not announce the trip beforehand in order to prevent fans from disrupting filming. He announced, on November 25, that filming was complete.

Howard Stern's Private Parts is the most entertaining read to come down the pike since you discovered your sister's diary in her underwear drawer. Walter Goodman The New York Times Book Review Breasts, behinds, insults, and a lot of kvetching from the self-described sweetest radio personality on the planet.

The movie adaptation focused on the autobiographical aspect. Stern describes in humorous detail growing up a Jewish kid in Roosevelt, Long Island, NY, son to a stern radio engineer and an overbearing housewife mother. The rivalry with Don Imus is mostly absent from the movie an Imus-like character merely passes by briefly , probably for legal reasons. Several, but Pig Virus, aka program director Kevin Metheny last name changed to Rushton for the movie adaptation and Don Imus stand out. Invoked and lampshaded in the movie, as Howard plays himself as a college student while he was in his 40s, his narration points out you just gotta suspend disbelief sometimes. One chapter describes his various feuds with local competition in the various markets he syndicated in. Most of these were fairly vicious wars, as Howard ran them down on air as being hacky and terrible, and how his loyal army of fans would clog up their phone lines with prank calls. Howard eventually beat him in the ratings, and, despite still being 2 in a large market, De Bella ended up fired, after being humiliated with a public "funeral" from Howard and even enlisted his ex-wife to attack him. The basic cable edit for the movie has Howard stepping into the scene itself describing why its being censored nudity, mostly , and at one point urges the viewer to just go rent it. Chapter 5 : Popular Howard Stern Books

Private Parts was a great book to read, as it was very entertaining, but also informative of some of the life of Howard Stern. As a big Howard Stern fan, I was very fortunate to get a hold of this book.

Life is really so simple. Let me tell you the secret of life. You learn it young. He takes you through hell and then at the end, all of a sudden, he says, "The secret of life is strawberries and cream. I just sat through three hours of boredom to find out that life is strawberries and cream? I went through a chess game with Death to find out that life is strawberries and cream? You want the secret of life? You wake up in the morning. You eat a little breakfast, maybe read the newspaper. If your teacher tells you to sit in the chair, you sit in the chair. You eat breakfast, you go to work, you come home. You yell at your wife, you make up with your wife. If your testicles feel all right, you bang your wife. You watch a video you rented or maybe you go out to the movies. Then you go home to your bedroom, you mellow out a little bit. Then maybe you get a snack, have some strawberries and cream, and wash it down with a Snapple. Then you snore away for eight hours, you wake up, and you do it all over again. The secret of life is so simple. If you have kids, you live with the kids. You stay with her anyway. The secret of life, in one cliché, if I may sum it up for you, is: Stop looking for a big bang, stop looking for some kind of excitement. Expect to be beaten by the police. The secret to losing weight is to keep your big fat trap shut. Let me make it appetizing. If you follow the secret of life as Howard Stern expresses it, guess what will happen to you? I should tell all the rioters this secret of life. Jump into a tub, get yourself wet. Put your finger in an electrical socket.
