Share on Facebook with Friends Infosys Brief Introduction Infosys Ltd formerly Infosys Technologies Limited is an Indian multinational corporation that provides business consulting, information technology, software engineering and outsourcing services. It is headquartered in Bangalore, Karnataka. Infosys is the second-largest India-based IT services company by revenues, and the fifth largest employer of H-1B visa professionals in the United States in FY Sample Aptitude Questions 1. The candidate should be a B. Along with this, good analytical, interpersonal and communication skills are always an added advantage. Procedure for Infosys campus placement I. First, you have the Online Written Test which has a time limit of maximum 95 minutes where a candidate needs to answer 65 questions. Further, Infosys written test is divided into 3 sections. The details are as following: The time allotted for this section is 35 minutes and you might be asked around 15 to 20 questions at max. The time allotted for this section is 25 minutes. Focus on solving the set-based questions first, because if you are able to crack the logic, then questions will be solved in a go. This would give you huge advantage in terms of time over other candidates. The individual questions can be solved next and each should take maximum of 2 minutes. This section includes 1 long and 1 short reading comprehension passage, totalling upto questions. The verbal ability section also consists of grammatical questions such as fill in the blanks , sentence correction 6 , theme detection 4 etc. The time allotted for this section is 35 minutes. The trick is to answer the sentence correction prepositions, conjunctions, tenses , error spotting and vocabulary based questions in the beginning. Next, solve the reading comprehension by finding answers to the questions directly rather than reading the whole passage. There might be questions based on critical reasoning, though rarely asked, it is better to be prepared for the same. An important point to note is that there is no negative marking for the online test, however there is a sectional cut-off. The overall level of Infosys written test is fairly moderate and a well prepared candidate will find it a breeze to clear the exam. Only those who have cleared the online screening test will sit for the next round, i. Next, we move on to the Technical Interview round where the initial questions asked are about the projects and internship s you have done during the engineering course. The final stage in the Infosys placement process is the HR Interview round and as expected, this round consists of questions based on your resume, job role and sometimes trivia about Infosys also. Also, be prepared with questions like Why should we hire you in Infosys? We have provided detailed articles on how to answer such questions along with sample answers in our HR Interview section of the website. Please visit the same and practice well in advance.

Chapter 2 : Infosys Placement Papers - Infosys Interview Experience - Bangalore 3rd, 4th April - (ID)

Infosys Ltd (formerly Infosys Technologies Limited) is an Indian multinational corporation that provides business consulting, information technology, software engineering and outsourcing services.

Option 1 Solution To appeal to start the written examination clearly hints about assumption I. Employees association assumes II that is why they have appealed so. Many youngsters are addicted to social network sites on the internet. This has become a major cause of concern as these youngsters are not paying attention to their studies. Which of the following steps should the parents of such youngsters take to rid these youngsters of the addiction? Children should be counselled to make them understand the problems that they would face in future if they neglect their studies. Social networking should be banned. Youngsters should not be allowed to access the internet. Youngsters should be made to practice yoga. The forest department has found several deadly tiger traps in the forests which fall under Maharashtra tiger reserve. These traps are usually laid by African nomads. Which of the following can be a possible effect of the above cause? The local people and the officials may be alerted of movements of African nationals who look different by their wears and traits. A fencing may be constructed all around the reserve. All the tigers from the reserve may be shifted to zoos. The government may send army personnel to comb the place to find if there are more such traps. It may prudent to bear with a small harm for a greater benefit. Problem arises when the harm has the power to endanger future generations. Research has consistently shown that frequent exposure X-rays can cause cells in human body to be destroyed or mutated, apart from this it can cause damage to DNA cell structure, a bane that could be passed down for generations. Doctors, unmindful of such consequences, subject the patients to exposure to X-rays, even in the cases in which it can be avoided. Doctors think of other consequences of the treatment they provide to the patients. All the hospitals have X-ray machines. There are no government directives regarding the manufacture of X-ray machines. One cannot do away with X-ray machines in treating the patients. None of these Answer: Option 5 Solution From the passage it is clear that the doctors do not think of using the X-ray machines. Hence, A cannot be concluded. The context of the passage is not about the number of hospitals that use X-ray machines. Similarly, C is also out of context. The passage is not referring to availability of alternatives to X-rays or otherwise. Hence, D cannot be concluded. Study the following information carefully and answer the given questions: A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement: Which of the following is the last step for the following input? Option 2 Solution Numbers are getting arranged in descending order. The largest of the given number interchanges its place with the first number. IN case the largest number is already arranged, the second largest is interchanged with the number next to the largest number, and so on until the numbers are arranged in descending order. The series which is in strictly descending order will be the answer. L $\hat{=}$ H if only conclusion I is true. Option 2 Should seniority be the only criterion for the promotion? All the senior employees are not interested in promotion. Otherwise senior employees feel humiliated. Option 4 Solution I is not strong because the question of criterion arises only when the employee is really for promotion. II is not strong because a blind submission to such a feeling will do no good to the organisation. The effort should be to take measures that make employees feel that they are being cared for even though not promoted. Some N are Z IV. Some Z are magic Conclusions: All Z being L is a possibility. Statement 1 is true.

Chapter 3 : Infosys Campus Placement Previous Year Papers - Previous Year Question Papers

You can easily solve all kind of placement test papers by practicing the exercises given below. How to solve Infosys Placement Papers? You can easily solve all kind of questions by practicing the following exercises. E with no active backlogs VTU affiliated colleges only. There were about people from about colleges across bangalore affiliated to VTU. The test was conducted in 3 batches. The test consisted of 3 sections- Quants, Logical and Verbal. QUANTS- 10 questions, questions were easy which could be solved in under a minute and the rest questions were difficult the questions from different topics were combined- for example the clocks and speed and time were combined into 1 question, and mixture and alligation and profit and loss were combined into 1 question. The cutoff for quants is 6 or 7 out of 10, you get around 35 minutes not sure for these 10 questions. LOGICAL - 15 questions, the questions were based on arrangements and data interpretation these questions are very easy to solve, but require some time to solve. Focus on data interpretation question, they will be 5 questions on this and solve arrangement questions at last, since these questions you can go wrong. The cutoff for this section is 10 out of 15. This section is comparatively easy. The cutoff for this section is 20 out of 35. The results were announced at 5: Out of people, around people were shortlisted for next round which was scheduled for next day. Shortlisted people were asked to assemble at the same place at 8: We were told there would be only HR interview next day. We assembled at 8: The documents were verified first photocopies of all educational mark sheet. The interviews started at 11 am. The interviews was like technical and HR combined. For some people there was separate technical and HR round For me and for some people there was only technical round. My name was called around 1: Questions asked to me were. Which is favourite subject in CS? I am from CS branch. Asked about my projects I had done 2. Asked me to write a SQL query that displays marks with count of students who scored that much marks. Example marks - 20 students, 90 marks - 40 students like that. What is IoT and name some applications? I had attended a workshop on IoT, so this question was asked. I had put trekking as my hobby, he asked me there was a mishap that occurred recently regarding trekking. Told A forest fire at Tamil Nadu, where some people went for trekking where permission was denied, and they lighted fire which triggered forest fire, and many people had died. He asked if I have any questions for him? Thanked him and left. I was called for HR round after 5 mins. HR asked me to introduce myself. I had told hardworking and loyal as my strength, she asked me to give me an example how I was hardworking and loyal. And it went on like this and she asked some other questions, I answered. And I thanked her and the interview got over. The results were announced at 5 pm. There were 72 selects out of people. I was also one of them: So main thing about Infosys is clearing the first round which is quite difficult and the interviews are quite easy and not much elimination takes place here 72 out of
