

Chapter 1 : InuYasha, Vol. ExLibrary | eBay

Inuyasha and the gang follow a trail of rumors that lead to a "living mountain." Naraku has awoken the mountain from its year slumber and stolen its sacred stone. The "living mountain" then gives a gift to Inuyasha and his group to help them in retrieving the stone.

I grew up watching anime and when I stumbled to this one, I instantly got hook. It occupy mostly the memory of my external drive haha sucker I know. I started reading this last December but had a 1 week off because of the Holiday until finally I finished it! This story is about this modern Japanese girl, Kagome, that was pulled from her own time and went to feudal Japan. It is where she met the half yokai supernatural monster in Japanese folklore or also called Hanyou, Inuyasha. Two opposite personalities that were forced to travel together because of the Shikon Jewel or the Jewel of Four Souls. Kagome female lead is so much fun and a wonderful heroine. And Inuyasha on the other hand is such an awesome badass that thinking about him hurts. And as a couple, they sure are mind blowing. Speaking of which, Inuyasha is a bad boy. When he first met Kagome, I swear he could really be a great pain in the ass and is a straight-up a-hole. And as the story progresses, he became this kind of awesome person without losing his bad boy image ofcourse. And when it comes to Kagome, he sure is kind of protective and I love their usual bantering. It could get annoying sometimes but mostly entertaining lol, especially when Kagome really gets angry at him. His character is so realistic too. Which to be honest, made me kind of mad at him. And speaking of human form, he sure still rock it even with black hair minus the cute doggy ears. Kagome on the other hand is a typical female lead. I love how she became badass as the story progresses. Kikyou may be the first woman Inuyasha loved, but it is Kagome who really changed Inuyasha as a person. Plus, did I tell you how many times she saved Kikyou? And speaking of moment, I need to step ahead and point out the lack of kissing scenes between them. As they travel, their group of two grows into a group of 6 where they met the kitsune Shippou, the monk Miroku, cool Sango and her cute Kirara. Shippou is a cute Kitsune fox yokai that specializes in making pranks which he mostly use to Inuyasha lol. At first, they both hate each other and argues which is kind of funny lol. But as they both travels together, their relationship improved. He is really adorable and so attached to Kagome. But his proposal to Sango was pretty sweet. Sango is a really tough cookie. I love her character and the fact that she can man handle guys. And her relationship with Miroku was so kawaii. Inuyasha and Kagome fell in love with each other and Miroku, Sango with each other too. I just love their group. Kirara is a cute yokai that transforms into a ferocious beast during battles. Number one in my list is Sesshoumaru. Inuyasha has this bad boy image, but Sesshoumaru is on the highest level. I really hate him at first. Unlike Inuyasha, he really is living the bad boy life. Then, it just happens, I love Sesshoumaru. And then I came to the part about Meidou Zangetsuha, I feel so sorry for him. Huhu, and then after that my admiration for him intensified. He made me feel so many emotions, I almost cried because of him. I love how the boring team of two grows and became lively because of her. But after I read the manga, I realized how absurd that is. Sesshoumaru is like a father to Rin in a strange way, and he sure is a great one. Miyoga is the coward flea. Well, it did actually in the anime. I would have love it more if they included a back story of him too. Kohaku is the younger brother of Sango. Naraku is For the ultimate cunning supervilain, I guess he quite deserve to be in this list lol. For an adventure stories, the idea of different set of individuals forming a group while traveling is quite cliché too, let alone falling in love with each other! But what sets this story different from others is on the adventures each characters went through. And what is that? I love that each characters has their own background covered, so we all got the chance to really know more about them and where they come from. As the title goes, without watching the anime, I really thought this series would only revolves around Inuyasha, well, it kind of does since each characters have a connection with Inuyasha. As I said, this series has a total of chapters so it will absolutely take us a lot of time if I talk about the adventures the group encountered one by one. Before I decided to read this manga, I have a lot of favorite scenes from the anime, mostly? The first one was when he met Rin human girl and resurrected her. I really love how little by little he changed from this full mean badboy image to a compassionate one. And another favorite scene was when he went inside the Meidou a place where

the living are not suppose to go to save Rin. It really is painful but I guess I really need to. I mean, if Inuyasha and Kagome will live together as man and wife, Kagome will age and Inuyasha would still be looking the same? The slowness of the villains too is quite so-so but I understand that to make this series long. That really is kinda confusing though. And lastly, the epilogue. You might be wondering which one of the two I love, manga or anime, I have to say that I love both.

Chapter 8 : Inuyasha vol. 34 by Rumiko Takahashi

*InuYasha is honestly a classic in the sense that the anime is well-loved, the manga is typically well-loved, it was original-ish when it was first published, but it went on way too long. It's a 56 volume series *This review is for the series as a whole (with a 3 star rating) and will be included on every volume for my own organizing purposes.*.*
