

Chapter 1 : How to Teach Yourself a New Language (with Pictures) - wikiHow

It's not hard, just takes a lot of time. I began to study German in February Just as you, I wanted to learn the language by myself. I approached German in a straightforward manner: Just opened SPIEGEL (German newspaper) and began to read it. With a starting vocabulary of about words. That.

This post wraps up two language projects: My month long German project My day push, which ended up being closer to a day push You can click the link above to read the details. The gist of it is that I want to become a German translator and have spent close to a year working toward getting myself prepared for the certification tests. But I want to use this post to answer a different question: Can you really learn a language by yourself? The first is a foreign-language major in college. He studied the language for two years in high school and four years in college, having received hundreds of hours of instruction from skilled teachers and professors. The second is an autodidact. He studies on his own with self-study courses, apps, and whatever else he can find. Common sense will tell you that the first person is at an advantage. Classes and teachers are great, and they can be useful assets to a language learner. I want to become a certified German-to-English translator. The first is a reading exam in the translated-from language and the second a writing exam in the translated-to language. That reading test was rough. And the whole thing was in German, even the questions. It was like taking an SAT reading test in a foreign language. Even when I knew literally every word of a text, I sometimes got thrown off by the questions themselves. This is how I often felt: Not knowing the meaning of words in passages or questions was my biggest obstacle. Also, the way the questions were set up, you really needed to know the meanings of words precisely. That kind of reading is a skill in and of itself. But, fortunately, I passed. I can proudly say that my German project last year was a success. My German is far from perfect, I have a long way to go, and my speaking is lagging far behind my reading and listening. But for all intents and purposes, I met my goal and am on track to keep going. The takeaways for you, between this project and my Spanish project in You can absolutely learn a language on your own. Persistent effort can get you far. I did a lot of my studying this last year during down time, fitting it in between work and family commitments. What Now for Me Well, the test was a reality check. I have a long way to go with German, especially if I want to make this a career. I also want to improve my speaking.

Chapter 2 : Can You Really Learn a Language By Yourself? | Language Surfer

Learning German by yourself is a great way to take charge of your own learning speed and the way in which you decide to learn. The person who best knows the way you like to learn is, obviously, you. So why not take the reins on your own personal trainer and teach yourself to speak like a real Deutscher!

Most Americans who learned a foreign language in school did so in a big class with one teacher. Even if the teacher enforced a strict No English policy, most of those students probably never became fluent. Are English-speakers inherently bad at learning other languages? The problem is that, in such a classroom context, the teacher does most of the speaking and each student has few opportunities to practice speaking. Is Immersion A Shortcut? Many language experts recommend immersion as the fastest way to become fluent in German; move to a German-speaking country, live with a host family and have every interaction in German. The idea is that, without English to fall back on, the desire to speak German will become a real necessity, a sink-or-swim survival pressure. You will have to learn how to speak German because there will be no other option. But is it really that simple? Plenty of people have tried and failed to learn a language, even with immersion. Physically being somewhere is not, in itself, a learning tool. Immersion works because the best way to learn German is to hear it and practice speaking it every day in the context of your normal life. When people talk about immersion, what they really mean is learning by doing – to get away from an academic approach and live the language. If you know how immersion works, you can start learning German no matter where you are. Turning Off The Blahblahblah Filter Our brains are incredibly good at focusing on details, but this is only possible because our brains are even better at ignoring stuff. Soak it up; whether you understand is not immediately important. You can even live-stream German television online. Daily exposure will keep your brain engaged. Feel The Burn The most important thing that immersion provides is a constant stream of your target language. You will hear it all the time, you will read it everywhere and most importantly you will see people speaking it all the time. No two languages are pronounced exactly the same, which means that the speakers of different languages literally have different strengths and weaknesses in their face muscles. This is why it is so helpful to watch a native-speaker talk. Her mouth provides a clue as to what to do with your mouth when trying to pronounce the same words. Not only must your brain become familiar with the strange new sounds, your lips, tongue and throat must as well. There are as many answers to this question as there are people who learn second languages. Do you want to enjoy the films of Rainer Werner Fassbinder without subtitles? Do you want to tour the Austrian Alps without a guide? Are you about to meet your new German in-laws? Do you want to learn the lyrics to every Kraftwerk song in their original language? Are you planning to spend some time in Berlin to see what all the fuss is about? There is no one reason, but you need to know your reason. This is essential because it will help you stay motivated and focused. You can memorize and pay more attention to things that are relevant to you. In addition to picking up core vocabulary and phrases – words that are necessary for everyday speech you can stay interested in German by learning to talk about what matters to you. Use A Full Toolbox CD-ROM programs, audio courses, grammar books, flash cards, online learning, traditional classroom courses and speaking to native German-speakers will speed up this process. If you only want to learn German in order to read *The Tin Drum* in the original, you might accomplish your goal with only books and written worksheets, but it will be a long, slow road without human contact. Even if there is no one in your town or city who speaks German, the internet allows you to find language partners, whether you communicate by instant message or a video call. The best use for a language, after all, is talking to people. Learning by doing means trying, failing and trying again. Forget what Yoda said besides, he could barely even speak one language. The key to knowing how to speak German is simply trying to speak German, no matter how silly you feel at first. Making mistakes is no reason to become discouraged. Recent psychological studies into how we learn give us the easiest and most important tip: No matter how you choose to learn, constant exposure and daily practice will always bring results. One of the advantages of the Babbel system is that you are immersed in German from the beginning. The process is easy and intuitive with lots of helpful hints when you need them, and you can learn at your own pace and set your own lesson plans. Whether you are too busy

DOWNLOAD PDF LEARN GERMAN ON YOUR OWN

for a language class, a complete beginner, needing to brush up before a vacation or business trip, or wanting to re-learn everything you forgot in high school, Babbel can be customized to your needs. Test your level with Babbel and see what you can achieve. Best way to learn German About Babbel:

Chapter 3 : learning - Best way to learn German - German Language Stack Exchange

You can learn German on your own. And we are here to help. But wait, can you really learn German on your own? Let me explain. When you are learning a foreign language, you are learning it by yourself.

Can you learn German on your own? For those thinking that German can only be learned in groups or even in classes, you are incorrect. Learning German can be adopted as a one-man mission. There are many benefits to learning German ranging from Set a learning target Setting a learning target can be one of the best ways to get started. Many people struggle to set themselves a target when learning a new language. For German, the tricky part of the language is mostly grammar, so being prepared and focused can be your ticket to success. One of the best ways to keep focused is setting a strong, clear learning target. Being able to speak German can come in many forms. One of the clearest ways to map out your learning for sure. Ways to learn German on your own There hundreds of ways to get started with your German learning. There are very many simple methods they include the following: Textbooks Textbooks are a very personal way to learn and very old-fashioned. Textbooks are recommended, but try and stick to this as one of the many ways you learn German, versus the only way you learn German. Flashcards Probably even more popular than learning using textbooks is learning with Flashcards. The age-old method of writing up new vocabulary is one of the most effective ways to improve your recall and ideal for practicing on the go with the Flashcards being super portable. Sticking them up around the house using Post-it Notes is another effective way to use the method of learning to its maximum. Remember if you decide to learn on your own, check with the people who own the house or whom you rent with if it is okay to stick these all around the house. Here are some of the more diverse ways you can learn a language with the help of experts. Language learning apps Language learning apps are the rising stars of the language learning scene. For German learners, there is a massive amount of app resources out there for you to learn from speaking practice all the way to learning the German vocabulary, everything you need to get started from beginner to advanced levels. Apps are becoming a very interactive way to learn with heaps of new games, lessons, videos and ways to learn. Everything from speaking accuracy tracking to object translation can be accessed via the language learning apps. You are in now a shortage, worth checking the App stores today! Our recommendation is, of course, FlashAcademy which combines games, lessons, voice accuracy, object scan and much more. Skype sessions Skype is becoming one of the best ways to communicate in the 21st century, even for friends who live a few miles apart. Connecting with native speakers via Skype can provide an excellent outlet to start practicing your German. This hour will be a great way for you to start learning the language when you are at home and away from others, but with a native speaker with tons of experience speaking. Social media A very new way to learn German comes from social media. Social media has vastly become the platform for conversations. Starting and interacting in those conversations can be a very effective way to learn German. How do you persist through? Persistence comes from having tough weeks with your German learning. Plus, as you learn German on your own, be aware that that pursuit is noble in itself, so just keep on doing what you are doing. We wish you all the very best with your German learning! Thank you for reading! Francesco is a big fan of everything technology, productivity tools, tea, motorsport and marketing surprisingly. Feel free to reach out to Francesco and the social team on Twitter FlashSticks.

Chapter 4 : Can I successfully learn a language online? | Education | The Guardian

Language learning apps are the rising stars of the language learning scene. For German learners, there is a massive amount of app resources out there for you to learn from speaking practice all the way to learning the German vocabulary, everything you need to get started from beginner to advanced levels.

It takes you through the language teaching you how to talk with others. You also get easy assignments that you can do. Good for casual self learners or as a supplement; not for classes. Typically, to learn words, you dig through a dictionary. Well, this is different. Check it out and decide on your own. Do you have any best German textbooks that you swear by and recommend? I highly recommend this for German learners.

Chapter 5 : How do you learn German effectively on your own? | WordReference Forums

A Step by Step Guide to Learning German on Your Own Step 1: Get a Rich German Reading Diet The first step to improving your German is to start reading regularly in German.

Back in , I went from a beginner level to near mastery in German in just 3 months. I spent five years studying German at high school, and I got a C as my final grade. After I became fluent in my first 4 languages, I decided to give German a second attempt. I aimed to be a fluent German speaker in just three months. I stopped telling myself how hard German was and started focusing on the positive. Creating a positive filter made the language easy for me. Yes, you read that right. German can be easy. There are very logical and systematic ways of looking at German to make sure that you keep this positive feedback loop up and make swift progress in the language. This question comes up a lot, but it ignores the many irregular plurals we have in English, too. By far the most common plural ending for feminine nouns in German and occasionally for some masculine or neuter ones is "n or "en. In English we actually did this quite a lot in the past! This is even more evident in word root changes. This is not a practical solution, especially for beginner to intermediate learners who have many other things to worry about. So once again, I recommend you use some short cuts! The umlaut goes over about half of the nouns where it would be possible i. Most masculine nouns ending in -el, -en, or -er form their plural without an ending or umlaut, g. Arbeit en , Regel n , Studentin nen the last n gets doubled for -in ending nouns. About three quarters of neuter nouns have the plural -e, e. Bein e , Jahr e. The umlaut is used if possible and the majority are either mon- osyllabic, e. Gesicht er , Gehalt er , Geschlecht er. Neuter nouns ending in -el, -en, -er note that this is the same as for masculine ; diminutives ending in -chen, -lein; and words formed with.. Chef s , Hotel s , Restaurant s , Team s , Tunnel s , and for abbreviations like LKW s and for most words ending in a vowel other than unstressed -e: Auto s , Genie s There are other possibilities and very occasional exceptions, but these rules cover the vast majority of the nouns you will ever come across in German. Ideally, you would learn the proper plural of nouns as you come across them, but since this may not be practical if your priority is to communicate as much as possible in a short time, you will, once again, be better off guessing. This is another situation where I can confirm from personal experience that Germans will understand you perfectly well if you use the wrong plural. In an academic examination you would lose points for writing down the wrong plural; however, with human beings you will gain points for actually saying something, rather than keeping your mouth shut for fear of saying it wrong. Based on the statistics above, you have a pretty decent chance at guessing the correct plural! The most common ending is -e, so try this one first. If the singular already ends in -e, it is slightly more likely to be feminine so add an -n. Use this rule of thumb, then try to learn the above list, and finally get feedback from natives and spend more time reading, and you will quickly see the exceptions. As always, this is not a perfect solution, but saying a word in what sounds like plural will get you further. Pick up your own copy here! Benny believes the best approach to language learning is to speak from day one.

Chapter 6 : Learn German Fast, Easy & Fun - racedaydvl.com

There are many people who don't know how to learn German. Even if you visit a language school, self exercises are important to improve the proficiency. The video explains how to learn German on.

In the twenty-first century, multilingualism is becoming the norm. So where do you fit into this changing world? Do you see yourself as part of a dynamic population of world citizens, or stuck on a shrinking monolingual island? The real question should be: The more languages you speak, the bigger your world becomes. The idea that only children can become bilingual is simply a myth. Speaking a language is about connection, not perfection. Learning German A language is more than a bunch of words and rules for how to put those words together; it is another world. Speaking Standard German Hochdeutsch gives you access to the world of over 90 million native speakers, mostly in Germany and Austria. But learning German also opens the door to other dialects spoken in Switzerland, Liechtenstein, Luxemburg and by minority populations all across Europe. Worldwide, around million people speak some form of German as their first language. German is easier for a native English speaker to learn than many people realize. English is a hybrid language, but its origins are Germanic. Not surprisingly, English and German share thousands of cognates – words that sound the same and have the same meanings. For example, these verbs are similar in both languages: The language offers another useful shortcut: Speaking German is useful beyond central Europe. Understanding the language makes it easier to start learning other Germanic languages like Dutch , Norwegian , Danish and Swedish. With Babbel, you can learn German without going to classes, hiring a tutor or investing in expensive software. For an affordable monthly subscription, you have access to hundreds of hours of interactive courses that get you speaking right from the first lesson. We add courses on a regular basis, so the opportunities to learn and improve are always growing. And if you own an iPhone, Android, or Windows 8 phone the key to speaking German is already in your pocket. Benefits Having a little German in your conversational repertoire will open up the world to you on multiple levels: Traveling – Germany and Austria have much more to offer you than Schnaps and ski holidays, but only if you can talk to people in their own language. While monolinguals can easily get stuck in pre-packaged tourist situations, speaking even a little German gives you more autonomy when traveling. Get to know Germans in their own language, but get to explore the country on your terms. Living Abroad – When you speak German well enough to travel without a phrasebook in hand the idea of staying longer in another country can become tempting. Cities like Berlin, Hamburg, Munich and Vienna offer opportunities for students looking for a semester abroad, or professionals looking for some excitement in their careers. Brain Training – Even if you decide to only learn German as a hobby, knowing multiple languages will keep your brain healthy and nimble, even in old age. This is because knowing another language creates another network of connections among your neurons. The higher your neural interconnectivity, the better your memory and problem-solving skills. Germanic Culture, Unfiltered – The German-speaking world is responsible for some hefty contributions to art and culture. Whether you want to sing opera lyrics by Wagner or Brecht, learn the Viennese Waltz, study the Bauhaus school of design, or learn how to really cook Flammkuchen, speaking the language will let you participate more directly. And if you are among the 50 million Americans who can claim German ancestry, learning the language will help you get closer to your roots. Ways to Learn German About 80 million people around the world speak German as a second language, which brings the total number of German speakers of all dialects to million. There are a variety of ways to study the language: In The Classroom Classroom instruction with a teacher and other students is the most traditional approach to learning a language. Many Americans have already studied a language this way in high school, although not always with the best results. Many people who are motivated to become fluent find that classes offer a good balance between language instruction and chance to listen and speak. Private Tutor Learning one-on-one with a tutor allows for a completely tailored learning experience and more opportunities to practice speaking. Compared to a classroom where the teacher has to split attention among dozens of pupils, private tutoring usually yields quicker results. Audio Courses and CD-roms For people with money to burn on learning a language, but not enough time to commit to traditional methods, multimedia courses are a good

alternative – whether you practice listening and speaking with CDs in the car, or use interactive courses on your home PC in your free time. The main drawback to these methods is high up-front cost and material that can quickly become outdated. Online German Courses Online learning has made immense progress in the past several years and has become a viable alternative to more traditional forms of instruction. What do the methods mentioned above have in common? They all cost money. For thrifty folks who have a little more patience and motivation than the average learner, there ways to learn German for free: But be aware, just because someone is a native speaker does not mean they are a good teacher. This can still be a good option once you already know some German and just want to practice, but you must be prepared to teach your counterpart English. Tandems are free for both parties, but a significant time commitment. But immersion is no magic bullet. Before taking the big plunge, you can simulate immersion by streaming German radio and TV online, watching German movies and doing multimedia lessons online. Some websites offer free interactive learning material, like Duolingo and Memrise, but programs like these focus on writing and reading at the expense of listening and speaking. They also rely heavily on user-generated content, which means the quality is inconsistent and the accuracy of the information goes unverified. Learning German with Babbel Learning with Babbel costs you less per month than your morning coffee, is ad-free and has been made by a team of language experts, educators and designers – so you are guaranteed a top-quality learning experience for the best value. Here at Babbel we believe that the key to effectively learning German, or any language, is having fun. Commitment and discipline will always be important factors, but real engagement is what helps you to retain information and maximize your learning potential. Covers all four aspects of language acquisition – listening, reading, writing and speaking – with fully interactive multimedia lessons. The speech recognition feature even helps you improve your pronunciation. Your progress is saved in the cloud and synced across all devices – so you can learn anytime, anywhere. Regular course updates and new lessons so you always have access to the freshest, most up-to-date material. The Babbel Community lets you connect with other users so you can practice your German with native speakers or other learners. We offer a 20 day money-back guarantee – no questions asked. Try a free German lesson with Babbel and see for yourself just how enjoyable learning can be.

Chapter 7 : 5 Ways To Learn German For Free - LearnOutLive

###Learning German With Babbel Try your first German lesson with Babbel for free. One of the advantages of the Babbel system is that you are immersed in German from the beginning. The process is easy and intuitive (with lots of helpful hints when you need them), and you can learn at your own pace and set your own lesson plans.

Learning German comes in many shapes and sizes, with hundreds and thousands of brilliant resources that can help you acquire new vocabulary and fluency in your German. Learning is a different process for everyone, so despite being able to suggest approaches, learning is unique to each and every person. What type of learning is for me? Learning is something unique to all of us. The 7 Learning Styles These are some of the popular techniques that people use when it comes to learning a new language. These are all the styles to learn used in education to approach new work. You may have already noticed that you use some of these tactics in your current studying with language learning. Or you may even use a few of them or blend them together to help you pick up new vocabulary, phrases, and fluency. Recommended resources and learning tactics will be suggested here for you to go away and use: Apps The rise of digital devices has been rapid in the last few years, and something that has been embraced by language learners. Apps for language learning have been regarded as one of the best ways of learning for those on the go and those who need to get access to new vocabulary, lessons and interactive content for their target language. Apps have been within arms reach for years, allowing you to learn on the train, before your next meeting and before you go to bed, which gives cadence to their benefits. Apps like FlashAcademy have been extremely useful for German students to kick-start. Learn German with they learn with lessons, games, flashcards and native speakers combining interactive content with fun learning approaches. Flashcards A much older approach to language acquisition. German has been determined for many years by using a flashcard technique. Flashcards are handy, portable ways to pick up and log new vocabulary. Easy to start, flashcards provide you with a space to express your visualization approach, with images, text and even color association. They are accessible for all ages, and an excellent way to record a list of vocabulary. YouTube YouTube is something that both distracts us, but teaches us so much. German teachers and YouTubers are a fantastic source of learning for free. Providing video content and real-time communication allowing German learners to jump in to learn through interactive methods. YouTube is very visual, so creators of German language content can be creative in their style of teaching you, which makes it very fun. Classrooms Learning with a teacher or via one-to-one meetings is still an enriching way to learn German. The benefits of using classroom or one-to-one learning can be improved pronunciation and refined fluency. Thanks to being with someone in real-time, you can get feedback there and then, especially when it comes to developing your German accent. Language Exchange Growing in popularity year on year, language exchange online is becoming one of the best ways to connect with a native speaker if you are worried about doing it in person. Connecting via sites like iTalki , Speaky and HelloTalk are all great ways to speak with natives and also specialist German teachers. The resources are normally charged, but all of the money is provided to the teacher who motivates them to deliver the best possible content for the lesson. The ability to speak German is very powerful! All of these recommendations can be used together. So here are a few different ways and learning methods you could use when picking up some more German. Events Attending local events for German meet-ups is another way to speak with natives or people who love the German tongue. Try using something like Eventbrite or Meetup to speak with natives and connect with the language community in your local area. This opportunity to speak will massively help. Podcasts Aside from the TV and movies, podcasts on the go can be a nifty hack to improving your German. Accessing them through something like Spotify or even Podcast apps like Overcast. FM are powerful ways to continue your learning wherever you may be. When you next try a podcast, try to speak some of the words they mention in the feature. Why getting started is important Getting started is sometimes the hardest thing, with all of these fantastic solutions to learning German, the one way we get started is by getting started. Momentum helps to fuel language learning. Keeping up this progress will help you to grow your language skills and fluency. So get started today and keep that momentum flowing for the best way to learn German. Let us know what you

think the best way to learn German is, in the comments. Francesco is a big fan of everything technology, productivity tools, tea, motorsport and marketing surprisingly. Feel free to reach out to Francesco and the social team on Twitter FlashSticks.

Chapter 8 : Resources for Learning German on your own - Individual German courses for Beginners

To improve your German quickly, you must speak from the very first day you start learning German. This speak from day one approach is the fastest and most efficient way to learn German - especially if you speak with native German speakers.

This post contains affiliate links. Yes, German vocabulary is gendered. Yes, there are some really long words to learn. Find Your Big Why for Learning German Even before you think about which materials to study, or your method for learning German, you need to take a step back and understand your underlying reason for wanting to speak German. This is your Big Why. Here are some reasons for learning German that could be your Big Why: There are many ways to plunge yourself headfirst into German wherever you live. Here are a few of my top ways to bring Germany to your hometown: Make Your Computer Multilingual. Why not turn your computer into a German-only system? Find the German Speakers in Your City. Believe it or not, there are many communities of German speakers around the world. You may be near one and not even realize it! Watch German Television and Movies. Force yourself to focus by watching without subtitles. Not sure whether this approach is for you? Here are a few of my favourite language hacks that can help you learn German fast: SRS is a great method for memorizing vocabulary and phrases. It is probably the most effective hack you can use to pick up new vocabulary. Mnemonics help you create associations to easily recall German words. The key to mnemonics? Focus Your Study with the Pomodoro Technique. This technique allows you to break up your study sessions into smaller chunks of time resulting in better focus and a more effective learning experience. When my friend Anthony Lauder introduced me to conversational connectors a few years ago, they blew my mind. The hotel room is good. How is your hotel room? This is exactly the same answer with conversational connectors added in. Conversational connectors are extremely helpful because you can use them in a variety of situations such as agreeing with someone, sharing your opinion, or changing the subject. This speak from day one approach is the fastest and most efficient way to learn German – especially if you speak with native German speakers. How can you find native speakers to practice with? No matter where you live you can still find people, either online or offline, to speak with in German. I connect with German speakers by: The prices are reasonable especially compared to private, face-to-face lessons and you can meet in the comfort of your own home. Meeting Up With German Learners. Installing the HelloTalk App on my smartphone. This handy language-learning app helps you connect with other language learners around the world and is a great place to practise speaking German. You may also like to join my Speak in a Week crash course to give yourself a huge boost in confidence at speaking German after just seven days. Focus on the Easy Parts of German Lots of people think German is a really difficult language to learn. In fact, German has a lot of things going for it that make it considerably easier than many other languages. When learning German, the trick is to focus on those parts of German that are easy to pick up. Alongside that, you can find hacks to help you get around the parts that are perceived as more difficult. German is an easy language to learn because it has: No tones, as there are in Chinese or Thai No liaisons between words, as there are in French Many of the same letters as English, unlike Japanese or Korean No postposition or preposition suffixes, like in Hungarian or Turkish No strings of difficult-to-pronounce consonants like in Czech. Plus, German is a phonetic language. This means that with very few exceptions you know exactly how to pronounce a word when you see it spelled. Likewise, when you hear a word you can almost always write it out. English, by contrast, has all sorts of funky issues with pronunciation. On top of that, many parts of German grammar are the same as English since they are both part of the Germanic family of languages. Older Anglo-Saxon texts are particularly close to the German language. Even more recent classics, such as Shakespeare, are closer to the German roots of English. There are many more ways that German is actually really easy, so be sure to check out my guide Why German is Easy where I explore this in a lot more detail. Just remember these important steps: Find your Big Why for learning German Immerse yourself in the German language by creating a Mini-Germany in your home Make smart use of language hacks Use conversational connectors to sound fluent and buy yourself time Speak from day one – especially with native speakers Realise that German is much

easier than you think Conversational fluency in German is just around the corner! And now you have the tools to help you make the most of your German studies. Benny believes the best approach to language learning is to speak from day one.

Chapter 9 : How to Learn German: 14 Steps (with Pictures) - wikiHow
