*So here are 40 great love notes to help get your mind thinking as well as some little tips about what makes them work so well! As long as you have at least one person caring for you, life isn't a waste.*

This was just such a great thing for our marriage!! This little challenge of writing him love notes and sticking them all over was fun and it meaningful. The kids got into helping me with it, my little ones see how much I love their daddy, he got affirmations constantly for even the littlest of things!! It was just a win, win thing to do!! Here are some of my final love notes that I fit into his lunch before I took him out for the evening. I have no idea how I did this, but I got a big box of candy stuffed into the top of his box too!! Then when he came home I had this out on the dresser. We had to hurry because he had tons of traffic that day and got home later than usual. We dressed up nice and met some of our friends for a night of fun. Here is the silly picture we took to remember the day. The banquet hall was decorated with twinkling lights everywhere!! Sorry, I tried to get a picture of the comic who was performingâ€¦way to many lights up there. The food was goodâ€¦ I had chicken and my husband got steak. I forgot to take a picture of it though. That I did get a picture of. It was such a great evening! We hung out with friends, ate good food, had comedy, a little bit of worship and a beautiful message on marriage by Pastor George. Perfect way to end? We got a coupon from Rebecca for a buy one get one free coffee from Starbucks! So since they were only good that dayâ€¦ â€¦our date night continued with some late night chit chat in the car. Just like when we had no little munchkins. I had 2 coupons!! Whoo hoo for me!! Free Mocha latte with extra whipped cream for me please!! We got home late. We were so tired. It was such a wonderful way to end 14 days of letting my wonderful husband know just how much he means to my heart. I love you husband. But woe to him who is alone when he falls and has not another to lift him up! Here is my prayer for you. Lord, Thank you for this man. He is exactly who I need him to be. He loves you God. He includes You in our marriage. It is true that 3 cords are so much stronger than one or two. We need each other and we need You. Make our marriage into what You need it to be Lord. May I continue to honor him and treat him with the love and respect he deserves. May I be the Proverbs 31 wife he deserves. May we together use our marriage to glorify You and may others know Your goodness and mercy through us. Lord, please continue to do wonderful works within my husband. May he continue to grow and be the man You have created him to be. He is a miraculously wonderful creation of Yours. I am honored to be a part of his life. He is what made my heart start to blossom and grow. For this blessing, I thank You Lord with my whole soul. In your name I humbly offer up this prayer.

Because it seems that you have stolen mine. If you are not yet in a relationship, this is a good way to flirt. You are the only person that brightens my soul. This is a wonderful way to show your girlfriend that she makes you smile in even the darkest of days. A minute in your warm embrace is eternal bliss for me. This love note can easily be blended with other picturesque or poetic quotes on this list to make a longer, more romantic letter. There are two reasons why I get out of bed each day: I only love one of these reasons. No one likes to hear their alarm clock, but it is a lot easier to wake up when you know that you will get to have your girlfriend at your side at some point during the day. When I look into your eyes, I remember just how lucky I am. This is a simple way of showing her that you care for her and feel blessed that she chose to be with you. Some partners begin to feel taken for granted for over the course of a relationship, so this type of message is a good thing to send from time to time. I spent my life looking for a woman that I adore, and I am so lucky to have found you. If you want her to know that you love her, there are few love notes that are clearer or more blunt than this one. When I dream, I dream of you. One day, perhaps that wish will come true. If you are not dating her yet, this is a good way to flirt with your crush and show her clearly that you are interested in being with her. Hopefully, she will take the hint. I have never been so certain about anything as I have been about our relationship together. Your girlfriend may want to know where the relationship is ultimately headed or how committed you are. This is a good message to show that you feel certain about your relationship. Even when the day is dull, you are the sunshine that lights up my world. If you really want to make her smile, draw a cute sunshine next to your note. The worse your drawing is, the more it will make her smile. Words begin with A, B, C. Numbers start with 1, 2, 3. Music starts with do, re, mi. And love begins with you and me. Despite the distance between us, I feel closer to you every day. When you are in a long distance relationship, it can seem unbearable. All you can do is think about your girlfriend and count down the days until you can be close to her again. If this is how you feel, make sure that you let her know that. Throughout the good and bad, I will always be here for you. If your girlfriend is having problems in her life, it will really help her to know that you are always there for her. Alternatively, you can send this message if you recently had an argument and you want her to know that you still care. I was just wondering. Your love notes do not have to be that long or in-depth to make her smile, as this one shows. All I can do is keep listening to hear your knock at the door or your ringtone. When you first start dating someone, it seems like all you can think about is them. She will probably feel relieved to realize that you are feeling the same way that she does right now. During every day of my life, you are the sunshine that brightens everything. If you wanted something more poetic or just like the nature imagery, this is a great love note to send her. Loving you is what makes my life complete. This is a simple, beautiful way to show your love for your girlfriend. Time seems to stand still whenever you are in my arms. After a good date or a night spent together, you can send this message to her as a follow-up text the following day. If I did not spend every day adoring you and loving you, then I would not deserve you. This is a great message to send. It shows that you love her, and it shows that you do not feel like you deserve someone as amazing as she does. Your girlfriend will smile and feel well loved when she receives this love note. Sweetheart, I was thinking we could make our own workout today. If you were thinking of spending a sexually charged evening with your girlfriend this evening, this is an excellent way to hint at that plan. You have the most beautiful smile that I have ever seen. If you have just started dating, complimenting her smile is one of the safest compliments to give her without offending her. Perfect

pairs are rare to find, but I have found mine in you. This message sounds like it would pair well with matching jewelry or a pair of tickets to a movie. If you want something longer and more in depth, you can try this message. You must be an angel because you are too wonderful to be anything but a gift from God. It might be a bit of corny, but it should do the trick. If loving you is a mistake, I want to fill my life with mistakes. Bring on more mistakes! If you were a library book, I would never return you. If you are struggling to find a pick up line or a good way to flirt with your crush, this message would work well. This message works because it shows your commitment and your honesty. No one can promise perfection, but you can promise to do your best. I will count down the seconds until we meet again. Send this message immediately after you have left. My heart is calling out to you—will you answer it? If she did not answer your phone call, this is an adorable way to see if she is free to talk or can call you later. This is a bit more obvious and sexually explicit, but you could always give it a shot. Obviously, the joke aspect would work better if she just turned something on like a computer or a phone. When you get this note, you should come over and give me the longest kiss we have ever had. If you are wanting a kiss, this is a good way to hint at it. It is the smile I get whenever the phone rings, and I realize that it is a text from you. This is a good definition of love. My prayers are that you will always be at my side, and I hope that my prayers are always answered. If you are starting to feel more committed to the relationship, this message hints at your growing commitment. If someone asked what my goal was in life, it would be to spend every moment in your arms. This quote is bound to make her smile. You should tell me what I did to deserve you, so I can keep doing it. If you want to flirt while implying that you are lucky to have her, this text works. Nothing makes me happier than spending time with you. Send this after a date so that she knows how the date went and can expect a follow-up date. Your love has turned my entire world upside down. If you do not have time to text a longer message, this short one will do. When everything seems to go wrong, remember that I am always here for you. When she is going through a difficult time, messages like this will remind her that you are there for her. I only smile out of true happiness when I am smiling back at you. This is bound to make her smile, blush and fall even more in love with you. When I think of you, I realize how complete you make my world. This is a sweet message to send. The sun is there so that we appreciate the day. The moon is there so that we appreciate the nighttime. You exist so that I can truly appreciate what it is to be in love. I love the poetic imagery of the sun and moon in this cute love note!

Caroline Layzell Everyone needs time to reflect. A day or a moment when we stop to think about where we are in life, whether we have met the man or woman of our dreams yet, or if we are where we thought we would be on our grand plan of our journey in life. Specifically, a significant other. Some of you may be celebrating your single status and already living life to the full, some of you may be feeling alone, and some of you may be dealing with some personal challenges right now. So with this in mind, I dedicate this article to a beautiful friend of mine who, like many other yogis on our fabulous planet, may find singledom a little overwhelming. This article is to remind you that you are fabulous. And so, I send each and every one of you oodles and oodles of love, as well as 50 ways to think of everyday as a day of receiving little love letters to yourselfâ€”reminding you to welcome fabulousness into your world. Move in the direction that makes you feel alive. Start every day with a grateful heart. Gracefully let go of things that no longer serve you: Be your best version of yourself. Each day, list five things that you are grateful for and that make you smile. Find your purpose in life. Then, share your passion and enthusiasm with the world. Learn to sit still more. Appreciate that everyone needs some yin in their life to balance out their yang. Listen to your body. Take time to make your heart and soul happy. It never, ever, ever lets you down. Appreciate every moment we have in this beautiful world. Be kind to others. Be open to change. Admit when you are wrong. You can achieve whatever you put your mind to. Trust in yourself, and anything is possible. You are stronger than you think. What other people think about us is none of our business. No one is in charge of your happiness except you. The strongest people know when to ask for help. Smile at a stranger every day. You will never know just how much you made their day in that single moment. Be mindful of who you open up to. Only a few people actually care; the rest are just curious. If someone wants to be a part of your world, they will make their way towards you. No matter how crazy and messed up your world feels inside, there is always someone who thinks you are completely amazing. Find yourself and be that. They are meant to cross our paths for a reason. Enjoy discovering what the lesson they provide you is. Take a leap of faith at least once in your life and live life with no regrets. Let the tears flow when they need to. Give yourself time for everything to unfold. Take time each day to get upside down. Sometimes all you need is to look at life from a different perspective. Trying to please everyone is a recipe for disaster. The most confused we ever get is when we try to convince our heads of something our hearts know is a lie. Real love requires inner work. First we must be happy in ourselves, come to know ourselves, accept ourselves. We have to find peace of mind, find our purpose, and our passion. Sometimes good things fall apart so better things can fall together. Actions always speak louder than words. Trust your inner wisdom. The quieter you become, all the more you can hear. Live the life you love. Some people wait all week for Friday, all year for summer, all life for happiness. Make a promise to fall in love with yourself every single day. Experience as many different cultures as you can. Adventure and experiences are what make my world come alive! Throw caution to the wind. You can waste a lot of dreams through caution. Manifest what you want. Write it down and make it happen. Surround yourself with people who inspire and support you. Realize that you are exactly where you are supposed to be, in this moment.
