

Chapter 1 : Most Precious Blood Church: Most Precious Blood Church

Welcome to the homepage of Most Precious Blood, a Catholic Church and Community located in Denver, Colorado. Find more information about us here.

Most Precious Blood Catholic School was opened on September 12, , with students attending grades The Sisters of the Most Precious Blood served as teachers from the beginning days until By , the school had grown to a member student body, so the decision was made to build a new school. The present school building was dedicated on December 8, In , the first Kindergarten Program was started with an enrollment of 70 students. We also began offering before and after school Latch Key Programs to provide a safe environment for students of working parents. In we celebrated our year anniversary. Today Most Precious Blood School provides educational services to children beginning at age 3. TV Production classes are supported through a local grant and air weekly on two local cable channels. Our school has many supportive programs and services in place. Intertwined in all of the programs is the presence of Christ and the inspiration for every member of the school community to behave Christ-like both in and out of the classroom. Discipline With Purpose focuses on teaching children the self-discipline skills needed to be successful in life. We currently have an elected advisory School Board that meets monthly, and two extremely active school organizations - the Home and School Association and the Athletic Association. We envision a school supported by a strong parish community, where all parishioners, not just school parents, are actively engaged in its success. They are informed and involved and are our most effective form of advertising. Alumni maintain ties and are ambassadors for the school long after they graduate and local businesses are amenable to minor sponsorships and donations when approached. The school has the funds necessary to operate within its budget and obtain items from its wish list. Most Precious Blood School maintains its identity as a small school while enrollment in the upper grades grows to a level that sustains it into the future. Every classroom has a minimum of 20 students. The school building is energy efficient, environmentally friendly, and a safe and comfortable place to work and learn. A facilities committee efficiently reviews vendor proposals, bids, and repair estimates and works effectively and quickly with school and parish leaders to determine the best course of action. Routine maintenance schedules are in place and experts from the parish are called upon to volunteer as consultants and assist in grant writing. The Catholic identity of Most Precious Blood School is evident in the daily practices, behaviors, and attitudes of all stakeholders; administration, staff, students, and parents. Students engage in a wide-range of service opportunities and worship regularly, both during the week and on weekends. Students understand their faith and evangelize to promote the mission of the Catholic Church. Foreign language is integrated into the curriculum and resources are available to meet the special needs of all students. A diversified approach to teaching and learning is evident. MPB is highly regarded as a top-tier school in the State of Indiana. Assessment and continuous quality improvement is achieved through meaningful data collection and analysis. Parents and guardians are actively engaged in the educational and religious activities of their children.
