Chapter 1 : NTSB Aircraft Accident Reports (AAR) | Embry-Riddle Aeronautical University - Hunt Library

North Atlantic Ocean Station Delta, August 26, - August 26, Item Preview North Atlantic Ocean Station Delta, August 26, - August 26,

The measure was overwhelmingly supported by both parties, and passed by a margin of to 35, but future Chief of Staff and U. At the time, a present or absent call of the names of representatives averaged 25 minutes, and Rumsfeld and Taft asked for attendance to be taken a record 45 times. In , almost all roll calls were eliminated with the introduction of an electronic voting system for members of Congress to register their choices simultaneously. Leonard Whiting and Olivia Hussey , both teenagers at the time of filming, played the title role, marking the first time that the actors were close to the age of the characters portrayed. Rogers Caldwell , 78, American businessman and banker nicknamed "The J. Morgan of the South"; Caldwell lost most of his wealth in the Wall Street crash of October 9 , Wednesday [edit] A year old girl became the first Jew since the 13th Century to enter the tombs of the Biblical patriarchs beneath the Cave of the Patriarchs at Machpelah in Hebron , which had been captured by Israel in the Six-Day War. When the QUB students reached police lines, as cameras were filming, the 2, protesters then sat down in the streets in a show of civil disobedience. When informed of the honor, the year old jurist reportedly laughed and asked, "Already? Pete Docter , American film director known for Monsters, Inc. Louis Cardinals , completing an unlikely comeback after having lost 3 of the first 4 games before winning the last three. Senate, the Gun Control Act of "the first major firearms control act passed by Congress in 30 years" was passed by the U. House of Representatives, The new law prohibited the all sales of guns and ammunition by mail order a method used by Lee Harvey Oswald to obtain a rifle and limited over-the-counter gun sales to "qualified purchasers". Bart Brentjens , Dutch mountain biker, gold medalist in the Olympics and in the world mountain biking championships; in Haelen October 11 , Friday [edit] Live from the Apollo capsule Apollo 7 , the first American manned space mission with three astronauts, was launched from Cape Kennedy at The move came after Arias had declined to honor an agreement with National Guard commander Vallarino. Pinilla was sworn in as the new President of Panama. Although still referred to as the Summer Olympics , the games were the second in a row to be held in the autumn. Hugh Jackman , Australian film and stage actor, known popularly for his portrayal of Wolverine in nine feature films; in Sydney October 13 , Sunday [edit] The new Michigan International Speedway , located a few miles south of the small town of Brooklyn, Michigan , held its first auto race, the Michigan , near the end of the USAC Championship Car season. Ronnie Bucknum got the checkered flag for his first and only victory. Hines , , U. Guards at a prison farm in Cummins, Arkansas fired into a crowd of about 70 inmates who had refused to go to work in the fields until their demands were met, wounding 24 of them. An editorial in the party newspaper Red Flag was read aloud over Peking Radio, and referred to Liu only by an epithet. The declaration of proletarian victory is therefore not just a claim, but a fact. Wallace on its ballots for the November 5 U. Director Russ Meyer voluntarily gave his film an X rating, limiting the film to adults only, 17 days before the MPAA system of ratings was introduced. The Kingdom of Bhutan , located in the Himalayan Mountains, inaugurated its first ever airport. The craft would finally be recovered on September 1, President Johnson held a telephone conference call simultaneously with all three of the major U. Louis , and George Wallace was in Los Angeles. Appearing on behalf of the U. Senate had voted "to provide Mrs. Kennedy with Secret Service protection until her death or until she remarries. John Lennon was taken by London police to the Paddington Green police station on charges of possession of cannabis and obstructing a police search, in "the first arrest of a member of the Beatles, the most successful entertainers in the history of British show business". Lee Tracy , 70, American film actor "whose machinegun delivery typified the breezy spirit of the talkies when sound came to the movies". The four ministers handled all the tasks of the 16 ministries of the government. The " Fosbury Flop " became the standard for high jumping. The Japanese Beheiren group had arranged simultaneous rallies in locations throughout the station. An estimated 60, commuters were at

Shinjuku, unable to leave while rioters broke windows, tore up the interiors of train cars, and trashed the station. Tokyo riot police finally dispersed the crowd in and around the station after midnight, using fire hoses and tear gas. Nixon telephoned his closest aide and future Chief of Staff H. R. Haldeman. Anything RN can do. Farrell discovered the note in Apollo 7, the first space mission where the entire crew had the common cold, ended its day mission with a descent made worse by painful pressure in the astronauts ears and sinuses. With the crew having proven the success of the maneuvers necessary for releasing and then redocking between an orbiting ship and the manned lunar module, the capsule safely landed in the Atlantic Ocean north of Puerto Rico at 8:00 AM with a Navy helicopter hovering overhead. During his flight, on re-entry, Dana reached a maximum speed of Mach 5. According to a report filed with the U. S. Air Force summary, "Fourteen other people in separate locations also reported sighting a similar object". In order to avoid confusion between the different pronunciations of "lead" the verb lead and the dense substance lead, the spelling was altered to "led". Beregovoi Soviet cosmonaut Georgi Beregovoi, 47, became the oldest person up to that time to be launched into outer space, as the U. S. was rumored to be on a mission to go into lunar orbit. Instead, Beregovoi remained in Earth orbit and performed a rendezvous but not a docking with the unmanned Soyuz 2 spacecraft. After 61 orbits, Soyuz 3 returned safely to Earth on October 17. One reporter noted that "The problem games, as they came to be known, had been brought off successfully" more successfully in fact, than by any other host," and added, "Competitively, this has been the greatest Olympics in history. Incredible feats have necessitated practically rewriting the entire amateur record book," with 20 world records broken. The United States won the most medals 45 gold, overall with the Soviet Union in second place 29 gold, 91 in all. In the largest anti-American protest in British history, a crowd of 30,000 demonstrators marched through London near the U. S. Embassy. Lise Meitner, 89, Austrian physicist and co-discoverer, with Otto Hahn, of the process of nuclear fission in uranium; however, she was denied the Nobel Prize in Chemistry that went to Hahn for the discovery. In 1970, chemical element meitnerium Mt was named in her honor. Syrian President Nureddin al-Atassi then assumed that office as well and formed a cabinet, and would perform both jobs until his overthrow on November 13, 1970. Along the way, 23 civilians and 40 South Korean soldiers were killed by the invaders before of the North Koreans were killed and seven captured. Only three were able to escape back to the north.

On 21 December , the remainder of the squadron aircraft and aircrews were sent to NAS Quonset Point for similar refits, followed by one week of specialized training in the use of the searchlight in night attacks on enemy submarines. The movement was completed with the arrival of the last aircraft on 4 March VB came under the administrative control of FAW at that time. A detachment of three crews and aircraft was sent to Agadir, French Morocco, for familiarization flights in the combat zone. The first combat patrols commenced on 18 March A second detachment of six aircraft and crews was sent to Gibraltar , arriving on the 30th, and ready for operational patrols on 1 May The lack of enemy contacts led to the return of four crews and aircraft to Port Lyautey on 7 June , leaving two crews and one aircraft at Gibraltar for contingencies. The mission of this detachment was to protect Allied shipping from enemy U-boats during the Invasion of Normandy. By 9 July , the detachment had increased by arrival of three additional searchlight-equipped aircraft. On 24 July , two aircraft from the Dunkeswell detachment arrived to supplement the group. Movement of all equipment, supplies, personnel and aircraft was completed by 28 July The Azores detachment came under the administrative control of FAW The first operational combat mission ever flown from neutral Portuguese territory took place on 1 August Britain, being a long-standing ally of Portugal, was allowed to establish an air base on the Azores in Although the airfield could be used as a staging post by U. The detachment remaining in the U. Tour completion and crew rotation was imminent for the squadron. In order to provide enough aircraft and experienced aircrews for replacement crew training, the Dunkeswell detachment was reduced to four aircrews and four aircraft, with the remainder sent to supplement the Lajes Field detachment. Replacement crews began arriving in the Azores on 8 December , and personnel went into the squadron night searchlight training program. The four aircraft and crews left at Dunkeswell rejoined the squadron on 14 February Orders were received to established a squadron detachment of six aircraft and seven crews for hurricane reconnaissance at NAS Boca Chica , Key West, Florida. The aircraft departed Azores for Florida on 31 May October – November With this move the squadron came under the operational control of FAW In actual fact, most flight activity involved mail and passenger transport, search and rescue and special flights as assigned by ComNavEastLantMed. Russia and its East German ally closed Berlin to all traffic except for specified air lanes. The western allied air forces began the Berlin Airlift of supplies to sustain the beleaguered city. The airlift soon became known as Operation Vittles. VP-HL-6 flew numerous missions to bring medical supplies to airfields in the Allied Zone of Occupation where they were then transferred to unarmed transport aircraft flying missions into Berlin. The blockade was lifted in May Days later, a Swedish fishing vessel picked up a life vest identified as coming from the missing aircraft. Shortly after, the Russians published a note of protest accusing the missing aircraft of violating international law by crossing the Soviet border and exchanging fire with Soviet fighter aircraft the Privateer was unarmed. Fette and his crew of four officers and six enlisted were never accounted for, and were presumed to be among the first casualties of the Cold War. Unconfirmed reports stated that the missing crew members were recovered from the sea after being shot down and forwarded to the KGB for interrogation. Their ultimate fates have never been determined. The copilot and four crew members were killed in the crash. During the deployment VP became the first patrol squadron to fly all 12 aircraft over the North Pole. The squadron was the first to operate from the base in nearly a decade. On 23 October , VP deployed the detachment to NAS Key West , Florida, to help maintain the quarantine of Cuba by preventing Soviet Bloc vessels from bringing in intermediate range missiles and long-range bombers. VP supplied one aircraft and crew for a month to work with U. The SP-2E aircraft was reconfigured to function as a jump platform for Special Forces parachutists during day and night jumps at high altitude. October – 5 January During the deployment squadron personnel had the unique experience of viewing up close the newly formed volcanic island of Syrtlandur, a subsurface volcano that rose from the sea in July The squadron lost

two aircraft during the deployment. Meglio, crashed at sea with the loss of the entire crew of CAC During the deployment the Black September events occurred in Jordan and VP averaged two sorties each day in the eastern Mediterranean from 10 September to 22 October , when the situation stabilized. As well as flying a starred tail cap on their aircraft, over men and women from VP undertook the exterior renovation of the Pejepsco Museum in Brunswick, Maine. September found VP deployed to several strategic locations throughout the North Atlantic. In March , VP began transitioning from the P-3B to the P-3C Update II which incorporated the latest in avionics and weapons systems, including a turret-mounted infrared detection device that lowered out of the nose to identify targets day or night and AGMA Harpoon missile capability. This marked the first time since that an East Coast patrol squadron deployed to Southeast Asia. The detachment at Diego Garcia was in response to the Soviet buildup of military forces in the Persian Gulf. VP again deployed to Kadena, Japan in January During this time VP operated with units of the Seventh Fleet in the Western Pacific and Indian Ocean, and on several occasions operated simultaneously from every Seventh Fleet deployment site. The squadron also supported sixteen operational detachments to England, Ascension Island, NAS Sigonella , Sicily, Turkey, and Africa, at one point maintaining a detachment for 11 consecutive weeks. Over the Adriatic Sea VP enforced the embargo against the former Yugoslavia in the first continuous armed patrols in the Mediterranean since World War II , carrying live torpedoes and Maverick missiles. The squadron also was among the first to conduct Electro-Optic surveillance patrols overland and to visit emerging Eastern European democracies. VP was awarded the Joint Meritorious Unit Commendation for meritorious service in support of Operation Desert Calm, United Nations sanctions against the former Republic of Yugoslavia, and operations with deployed marine amphibious readiness groups and carrier battle groups from September to February VP completed the first ever live Maverick warshot by an operational P-3 squadron. VP flew over 85 hours in six days in support of this effort, during which two people were rescued after their vessel sank. The crews at NAS Keflavik had the highest total contact time on "real world" submarines among all US maritime patrol squadrons in the preceding four years. During the IDTC the squadron prepared for the next deployment, training both maintenance personnel and aircrew. The Caribbean detachment tracked suspected narcotics traffickers both in the air and on the sea. VP conducted many detachments to Manta , Ecuador to carry the counter-narcotics mission to the Eastern Pacific. The s Edit VP attained , mishap-free flight hours in over 38 years as of "a worldwide record encompassing all types of aviation, civilian and military. In preparation for its next Mediterranean deployment, VP trained all 12 aircrews in the new P-3C Update III AIP Anti-surface-warfare Improvement Program aircraft with state-of-the-art improvements in command, control, communications, and intelligence; surveillance; and survivability. The squadron received its first AIP aircraft in September Over the course of six months at NAS Sigonella, VP flew more than 5, mishap-free operational hours, achieving a 93 percent sortie completion rate. Following the September 11 attacks , VP set a heightened state of readiness and supported the war on terrorism by taking part in various homeland defense operations. Aircrews took part in missions ranging from armed surface combat air patrol in the Strait of Gibraltar to SRO[Clarification needed] to the "Wars on Drugs and Terrorism". The firefighters presented the command a cross, fabricated of steel from the World Trade Center , as well as a photograph of the tragedy. On 7 April, two VP crews and maintenance support personnel departed for the Mediterranean to participate in the Iraq War. On 16 April, VP officially assumed the duties of the ready squadron. On this basis, the squadron was the safest organization throughout all military and civilian aviation, flying over , hours without a mishap since , when a P-2E Neptune caught fire and exploded during a ground maintenance engine check. VP participated for 2 weeks and flew more than 75 hours in the exercise, which had been moved off the coast of Florida[Clarification needed] because of Hurricane Isabel. In addition, the squadron flew escort missions through the Strait of Gibraltar, escorting USNR ships, ensuring that the sea lines of communication remained open. During the remainder of VP continued training. VP surpassed 42 years of mishap-free flying, totaling over , hours in August. In December, two crews from VP joined VP as the first reserve crews to be part of an active squadron. The squadron returned to Brunswick in June In VP surpassed , hours of

mishap-free flying. An interdeployment training cycle with surge detachments to the Fifth Fleet AOR consumed most of the year. That homeport change was executed in January

The Biodiversity Heritage Library works collaboratively to make biodiversity literature openly available to the world as part of a global biodiversity community.

The only submarine of the class built to the original Project design. The keel was laid on 24 September Launched on 9 August First underway on nuclear power 4 June Launched 1 September Commissioned 26 December Soviet submarine K-8 Laid down 9 September Launched 31 May Commissioned 31 December On 12 April , after four days on the surface, K-8 sank returning from patrol and participation in the large scale "Okean" naval exercise. This was the first loss of a Soviet nuclear-powered submarine. K-8 sank with four nuclear torpedoes on board at a depth of 4, m Bay of Biscay [citation needed]. There were also three small incidents with K-8 whilst on patrol before breakdowns of steam generators in " K Edit K was laid down on 2 September , launched on 16 August , and commissioned 30 December K entered service with the Northern Fleet given to th separate brigade of nuclear submarines, based in Malaya Lopatka of Zapadnaya Litsa Fjord on 31 August The submarine performed 9 cruises in passed 1, miles up-top and 11, miles submerged , including patrol mission in Atlantic Ocean. In view of reforming of submarine units K was given to 3rd division of nuclear submarines which was a part of 1st submarine flotilla in January The submarine performed 4 cruises in passed 1, miles up-top and 1, miles submerged. The first experimental discharging of reactor cores directly in the naval base was made on K in The reactor compartment was replaced in because of a breakdown of reactor protection systems. The submarine performed under-ice cruise from the Northern Fleet to the Pacific Ocean Fleet between 30 August and 17 September , K resurfaced 19 times at the North Pole for searches the Soviet research drifting station SP to apply medical aid to one of the expeditionists from the station. Captain of K captain 1st rank D. Golubev and commander of the 3rd division of nuclear submarines chief officer on board captain 1st rank N. Ignatov were awarded with the Hero of the Soviet Union for that Arctic cruise. K was given to 10th submarine division based in Krasheninnikov Bay which was a part of 15th submarine squadron of the Red Banner Pacific Fleet. The submarine performed 4 patrol missions days in " and it was under medium repair between December and March K performed 3 patrol missions days in " , participated in training cruises in " On 12 February a fire took place in a hold of VII compartment during maintenance work in the naval base, the fire was brought under control using submarine chemical smothering arrangement but one man was lost. She was laid up in Postovaya Bay Sovetskaya Gavan as of K performed 14 long-range cruises and passed , miles 22, operational hours since placed in service. K Edit K was laid down on 2 April and launched on 18 June K entered service with the Northern Fleet given to 3rd division of nuclear submarines which was a part of 1st submarine flotilla, based in Malaya Lopatka of Zapadnaya Litsa Fjord on 28 November The submarine performed an Arctic cruise that year passed 2, miles up-top and 3, miles submerged and launched four torpedoes to determine a size of an ice-hole after explosion and a possibility to surface there. K performed long-range cruise between 24 March and 14 May 51 days, passed 10, miles including 8, miles submerged , patrol mission to the Norwegian Sea and North Atlantic according to plan "Ograda" "Protective fence" between 23 April and 21 May , patrol mission in Barents Sea in , 3 patrol missions in " days total. Three interim overhauls were made in " , " including refueling in and " In , K was given to 17th submarine division which was a part of 11th submarine flotilla based in Gremikha. The submarine performed 4 patrol missions in " days total and combat training cruises in " K was decommissioned from the order of battle in K passed , miles 22, operational hours since placed in service. Soviet submarine K K was laid down on 31 October , launched on 1 September , and commissioned 30 December K entered service with the Northern Fleet given to 3rd division of nuclear submarines which was a part of 1st submarine flotilla, based in Malaya Lopatka of Zapadnaya Litsa Fjord on 16 March In November the sail failure of fuel pins was detected during the scheduled repair in Severodvinsk and it was decided to refuel both reactors. On 7 February the ejection of radioactive steam took place during the lift of a reactor

DOWNLOAD PDF NORTH ATLANTIC OCEAN STATION DELTA, AUGUST 26, 1968 AUGUST 26, 1969

cover. Crewmembers were evacuated from the reactor compartment, the reactor cover was lowered down and naval staff was informed about the accident. Arrived naval specialists came to the wrong conclusion that deterioration of radiation environment was only a result of emission of high-active reactor water and they allowed to continue refueling. On 12 February the ejection of radioactive steam took place again during the second lift of the reactor cover because of inaccurate following operational instruction, crewmembers overwatched the procedure were evacuated from the reactor compartment and the reactor cover was lowered down. The uncontrolled reactor with unclear position of its cover remained unwatched during 4 hours when a fire occurred. The attempts to extinguish the fire in the reactor compartment with the use of fresh water and CO₂ fire extinguishers were not successful so shipyard fire fighting vehicles filled the reactor compartment with tons of outside water. About tons of that radioactive water spread over another submarine compartments through burnt-out sealings and deteriorated the radiation environment in a work area significantly, 7 men were exposed to radiation. The only possible decision was to remove the contaminated reactor compartment and to install a new one. K performed five patrol missions in 1967 days. The submarine was modernized between November 1967 September and given to 17th submarine division of 11th submarine flotilla based in Gremikha in 1967 K performed four patrol missions in 1967 days and five patrol missions in 1967 days. The submarine was decommissioned from the order of battle on 19 April She was laid up in Gremikha as of K passed , miles 29, operational hours since placed in service. In the submarine performed a long-range cruise 51 days to Atlantic equatorial zone for the first time for Soviet Navy. She was under current repairs between October and September K together with K Project submarine for the first time in the world performed submerged voyage from the Northern Fleet to the Pacific Ocean Fleet via Drake Strait under the general command of Rear Admiral A. K passed around 21, miles for 52 days of that voyage. K performed 2 patrol missions days total in 1967, 2 patrol missions 93 days total in 1967, 1 patrol mission 48 days in and 1 patrol mission in 1967 The submarine was decommissioned from the order of battle on 30 May K passed , miles 21, operational hours since placed in service. K Laid down 4 April , launched 22 October , and commissioned 31 December K Edit Decommissioned submarine K renamed as B in in Gremikha Bay of Barents Sea, 28 August 1967 ready for towing to the shipyard for scrapping On 30 August , the submarine K sank during stormy weather while being towed to the shipyard in Snezhnogorsk, Murmansk Oblast for scrapping K was decommissioned in [2]. Nine sailors died in the accident and one was rescued. K performed 9 missions and passed , miles since June Was located next to K during the nuclear fuel accident during 10 August As a result of the accident, K was also deemed damaged beyond repair and decommissioned. K accident update K Edit K was laid down on 14 February using some mechanisms and equipment from unfinished submarine of project PA , launched on 16 December , and commissioned 17 July K entered service with the Northern Fleet given to 3rd division of nuclear submarines which was a part of 1st submarine flotilla, based in Malaya Lopatka of Zapadnaya Litsa Fjord on 6 August The submarine was given to 17th submarine division based in Gremikha in 17th submarine division became a part of 11th submarine flotilla in The submarine performed a number of cruises including participation in naval exercise "Ograda" Protective fence during 4 March 1967 4 April , patrol mission in North Atlantic in July , two patrol missions days in 1967, one patrol mission in 51 days , one patrol mission in December 1967 January Besides combat duties K took place in training cruises and tests of new equipment also. Refueling was made in September during a medium repair. K was renamed as K in She was decommissioned from the operational order of battle on 19 April and stored at Gremikha Bay. Between 3 and 6 September the submarine was transported by heavy lift ship Transshelf belonged to Dutch Dockwise Shipping B. K covered , miles 24, operational hours since placed in service.
