Sunday, December 21, Vicious [Pretty Little Liars 16] In Rosewood, Pennsylvania, reporters are lined up outside the historic courthouse, typing furiously at their iPhones with freshly manicured nails. Because the trial of the century is happening right here in Rosewood: Ali is still out there, laughing as she watches the girls go down for her murder. Aria tries to run away from it all but finds that life on the lam is even harder than life as a liar. Spencer gets in touch with someone who can help her disappear--but when a guy from her past reemerges, Spencer no longer knows what she wants. As the trial goes on and the outcome looks grim, the girls are in their darkest hour yet. But maybe they can finally figure out how to beat Ali at her own game. We get a glimpse of a triumphant if not slightly That makes no damn sense. They have lost everything. Hanna lost her movie deal and invitation to go to the Fashion Institute in New York. They have gone through a feat of lawyers and none of them believe that Ali is alive or setting them up. With jail never looking as real as now, Spencer starts taking How to Survive in Jail lessons from a tutor who tells her the only way someone like her is going to survive is if she avoid jail time. That trip quickly becomes a waste of time. Using the information Nick gave them, Emily finds one of his families places that no one has checked out in Cape May. Emily convinces her friends to go off to the coast to check it out. But of course the place turns out to be a dead in. Heartbroken and finally giving in to their fate, the girls decide to stay for the night not realizing that something is wrong with Emily. And something is wrong indeed. After all it was only the last book that the girl tried to kill herself. She scribbles a note to her friends then takes to the sea. Spencer stupidly tries to dive in after her but she is no match for them waves. Pretty quickly after all this, Aria is like, "Fuck this! Okay, Mike, whatever you need to tell yourself at night. This is just going to make it so much harder on the both of you when Hanna does go away because now you have to get a divorce. But no one listens to me! It is somewhere during this mess that it is realized that Aria has flown the coup. You would think this would bring Hanna and Spencer closer together but all the bad words not blood, words between them keeps them apart. Meanwhile, Aria hops across the seas to Paris. From there she runs to the place that she and the Nick-she-knew was it Phineas? And much to her and my surprise is is waiting for her but her boyfriend, Noel himself. They are happy for a while until her old insecurities about Ali come up, her paranoia about being found and a huge fight that ends with them both getting caught by Interpol and their asses being hauled back to the United States. Back home, Hanna is happily planning her wedding. She invites her stepsister, Katie, but happily calls her dad and tells him that his ass is not invited. And Spencer is now contemplating flying the coup as she and Wren reconnect. Now that she and Melissa have a good relationship, she refuses to let him back into her life. However, Wren wants her so bad, he goes and talks to her sister to get her blessing. She gives it and Spencer gives into him. Also, her dad shows up and begs for her to allow him to walk her down the aisle I think he only wanted to for a publicity stunt. Hanna forgives him and allows him stay but only lets her mom walk her down the alise. The jury has decided Hanna passes out after sharing a scared-shitless look with her husband because in all their planning they somehow never accounted for Hanna really going to jail. Next thing we know, the Liars are in their orange suits in thrown in prision where there are enough Ali-Cats and just Ali-admirers to make them crazy. Because someone is waiting for them She has Ali with her! It turns out Emily purposely faked her death. So she fabricated that suicide letter so no one would come looking for her. I knew it made no sense for her to die in that water. Anyone who knew her, knew she probably had the talents being a swimmer and all, to survive. But it worked in her favor. She was declared dead and took a bus to Florida where she all-too-easily found Ali and She was hiding Ali all along. Emily calls the cops as she spots Mrs. DD then Ali comes out with a gun. But it is too late, the cops are already here. The cop quickly catches her and Emily exposes her as a dead-girl. Ali tries to refute this claim but Mrs. All the charges against the Liars get dropped, Ali gets thrown into jail and everyone ends up happy. Aria and Noel make up and she agrees to leave her Ali-insecurities in the past. They decide to try and travel Europe again, but this time while not being on the run. Mike and Hanna

move to NYC. She gets her movie role back and back into the Fashion Institute while he transfers to a high school in New York while they live in a apartment together. Emily goes off by herself for a bit and learns how to surf and finds a new flirtation. Spencer and Wren get back together and she takes a year off from Princeton. Meanwhile, Ali bides her time. Otherwise, this entire book was just a filler until the end. It only took 16 books and a re-boot! If the DD family lived in a different town before they moved to Rosewood, then when did Mrs. Hastings meet and have the affair that conceived Ali and Country? If this is answered and I missed it, please let me know because I sure am wondering.

**Chapter 3 : Pretty Little Liars Series by Sara Shepard**

*Vicious is the explosive conclusion to Sara Shepard's #1 New York Times bestselling Pretty Little Liars series, perfect for fans of the hit ABC Family original TV show based on the series.*

The actual end of the PLL series. Please let it be so. We start with an epigraph from Orson Welles, a man who in all honesty would have been very unlikely to appreciate the PLL series. We also find out that she has yet another secret helper. Who is it this time? We jump straight into stupidity, as Spencer preps for her time in prison by visiting Angela, a prison expert whose book she has read. Nick gives them some cryptic clue about his Grandma Betty in Cape May, and the girls rush off in hot pursuit of a resident named Barbara Maxwell, since apparently Betty is short for Barbara now? Much like Emily, who suddenly takes it into her head to walk into the sea and drown herself, and promptly disappears. I guess they really want to see the back of her. The remaining PLLs promptly fall out with each other, since they are a bunch of babies. Meanwhile Aria sensibly decides to run away to Paris to escape the trial. In an even stupider move, Hanna agrees to marry Mike even though he proposes with a lacrosse bracelet rather than an engagement ring, and more significantly is a pathetic child and has no business getting married. Instead we have to endure pages of gushing over bridal gowns and wedding-cake tastings, which seems to me to be taking focus away from the ongoing murder trial somewhat. Why would all the involved parents sign paperwork agreeing that two year-olds who have been dating for a matter of months can get married just before one of them potentially goes to gaol for life? The whole thing is beyond a joke. Yet more stupidity, as Aria inconspicuously takes a taxi from Paris to Amsterdam to continue lying low, before checking into a hostel using her own ID. It then turns out that Noel has magically predicted exactly where Aria will be, just outside the only Amsterdam tourist attraction Shepard has bothered to look up, and times things perfectly to bump into her. In other irrelevant love-life news, Melissa and Darren are engaged and going to have a baby? Why the hell should I care about that? Even the lawyer seems to have better things to do, judging by how ill-informed he is on the case. This proves that Spencer has learnt absolutely nothing from the whole surrogate-mother-con-artist debacle. Aria and Noel are swiftly captured by Interpol due to the fact that they are moronic. We also find out that Hanna is being married by a rabbi. Are the Marins Jewish? When did this happen? The wedding itself is tasteless, sentimental crap which takes up far too many pages. It would be literally impossible to pick a more banal series of subjects. The whole bizarre multiple-murder-fake-identity-secret-twin-trial-of-the-century thing seems to be barely on the radar of either the characters or the author. Eventually Shepard gets bored of sappy crap and we rush to the courthouse for the verdict, which the jury have suddenly reached on a Sunday morning. She seems to be the only one they have anything on, even if it is only a video of her looking a bit shouty and smashing stuff. Naturally amongst the stereotypical prison inmates there are several Ali Cats, because apparently they absolutely fucking everywhere. Fortunately the girls are rescued from this hell less than 24 hours after they enter it by an exciting and totally unforeseen new development. How best to follow up this clue? Obviously by faking her own suicide in a dangerous manner, like a completely selfish bitch. Although admittedly it is impressive that she was thorough enough to provide fake chapter narration in an attempt to fool the reader as well as her friends. It turns out that Ali has cunningly been hiding with her mother this whole time, as has been hinted throughout the book. She is also plain and fat now, as evil manifests itself in such a form. Let that be a lesson to you, teen girl readers. A judge then immediately frees everyone except Ali and tells them all to go home, because who cares how the law works? Everything is perfect, and even Emily gets a random new girlfriend thrown in at the last minute, since Shepard forgot to write one into the actual story. Everyone lives happily ever after. But wait! a horror still lurks. And when that day comes she will unstrap Alison DiLaurentis, and let her loose on the world once more. And when the horror returns, who will save us? Worst Names Camp Rutabaga " why would you name a camp after a swede?

Running away from your school, your town, your home, even your family and friends, and starting over somewhere else. Changing how you look, what you like, who you are. Your past and future would be a blank canvas. And it would suck to have the people back home worry about you, going so far as to, say, put your face on a milk carton. And to her four enemies, it might mean the end of their pretty little lives—forever. The first thing Alison DiLaurentis noticed when she woke up was how buttery-soft her sheets were. Her down pillow was fluffy, and her blanket smelled like fresh fabric softener. A band of sun streaming in from the window warmed her legs, and a bird chirped euphorically in the trees. It was like she was sleeping in paradise. She sat up and stretched, then broke into a grin as it hit her again. Score another win for Ali D. She picked up the remote and turned on the small television at the foot of the bed, which was already set to CNN. *Pretty Little Murderers Go to Trial*. The reporters recounted the tantalizing tale of how the four girls had brutally murdered Alison DiLaurentis and were now on trial, facing life in prison. It details how the girls methodically captured and tortured her. Seth Rubens, read the caption under his name. He was the lawyer representing the girls. Stay here for full coverage. So far, so good. Everyone bought that she was really dead, and everyone thought those bitches had killed her. But it had pissed her off that things had gone so wrong. When shit started to go down and the Liars spiraled out of control, Ali and Nick started rumors that the bitches had a suicide pact—and spread it to the press, to kids at school via Facebook, even to random people around Rosewood. Knowing the girls were looking for Ali, Ali and Nick laid out clues to her whereabouts, luring them to the basement of a ramshackle building in Rosewood. The girls were supposed to die down there. The cops were supposed to come after it was all over, when Ali and Nick had safely escaped, and think it was a group suicide. Somehow, the girls had been saved, and the cops had hauled Nick off to prison. Ali had gotten away, but worry plagued her. You have to get them, she thought. You have to finish this. And so she had. She twisted her relationship with Nick into something sordid and abusive, poor little sick Ali dragged into a murderous rampage with no way of escape. Nick killed my sister. Nick killed Jenna Cavanaugh. She wrote that Nick had barely cared for her after the Poconos fire and forced her to take part in more nefarious activities, threatening to kill her if she told anyone or tried to leave. She wrote about clawing her way out of that basement to get away from him. Several entries talked about how wonderful it felt to be free—but how scary, too.

**Vicious Characters** Although the series features an extensive cast of characters of varying significance, the novels focus predominantly on six main characters:

- Spencer Hastings** Spencer Hastings An extremely competitive girl who strives for perfection in everything she does. A high-strung over-achiever, Spencer is willing to do whatever it takes to win, often to the detriment of herself and others. She is often quick to jump to conclusions and suffers from IED. When she attends a summer program at Penn to improve her GPA, she becomes addicted to Easy A, leading her to frame a friend for possession in order to get admitted to Princeton.
- Hanna Marin** Hanna Marin A pretty, popular girl who struggles with both bulimia and anorexia due to insecurities about her appearance. Flighty and occasionally air-headed, Hanna often acts purely on impulse. For a short time, Hanna is sent to a mental institution, her father believing her eating disorders would resurface due to stress.
- Aria Montgomery** Aria Montgomery An artistic, independent girl whose family moved back to Rosewood after her father took a three-year sabbatical in Iceland. Aria often feels out of place in Rosewood and tends to be attracted to older, more worldly men, which frequently causes conflicts for her.
- Emily Fields** Emily is a dedicated swimmer and a shy girl with a sweet personality. She is bisexual, a fact which she takes great pains to hide until she is outed by the first "A". Although at first, her parents make attempts to "de-gay" her, they eventually come to accept her. Best friends with Alison, Emily was also in love with her, which caused her great anguish and continuously affects her judgment in the present. It was revealed in Twisted that she had hidden an accidental pregnancy from her family, later giving her child up for adoption. Despite this, she received a swimming scholarship to attend UNC. Unfortunately, she never got to have the full middle school experience as her twin sister Courtney fooled their parents into taking Ali to the mental institute instead of her. When she first arrives in Rosewood Day in third grade, Alison holds commanding reign over the school, with every girl wanting to be her and every guy wanting to date her. During a Thursday afternoon in sixth grade, Ali spots a flyer for the Time Capsule Tradition and boasts that she will have a piece flag given to her by her brother Jason. That weekend, Courtney was home from The Radley , her old mental institute that was being turned into a hotel, in order to switch to a new clinic, The Preserve at Addison-Stevens. However, Courtney spots them shortly after arguing with Ali and immediately comes out and pretends to be her sister. Courtney was more popular than Ali, and Ali forced Courtney to be Ali. Fed up by this, Courtney attacked Alison because she was sick of her tormenting her. The family moved to Rosewood and Courtney was placed at The Radley, a mental institute. She occasionally came home on the weekends, but she was forced to stay in the house, as the DiLaurentis family pretended they only had two children Jason and Alison. She stayed there for about three years until the Radley was closed down. One weekend, when Courtney was switching from the Radley to the Preserve, she got into a fight with Ali and took her ring. Hanna, Aria, Emily, and Spencer wanted to steal the piece of the flag Ali bragged about for the Time Capsule competition. Courtney saw them sneaking around the yard and talked to them for a while. And her plan worked. She was now Alison DiLaurentis. Now Courtney was best friends with Emily, Aria, Spencer, and Hanna, and in one way or another, she learned all of their deepest secrets. Courtney mysteriously disappears one night at a sleepover, at the end of seventh grade.
