Chapter 1 : Raleigh bike chart,

The C40 seemed great, Aluminum frame, Shimano 21 speed, sprung forks and seat post. The bad part, the rotary gear shifters have detents that don't agree with the derailleurs, so getting all 3 sprockets to engage on the front requires cable adjustments WHILE RIDING!

Excellent The bicycle looks new and is in like-new mechanical condition. No service is required on any component, part, or accessory. The bicycle may require minimal service adjustments without the need of replacing any parts. Good The frame or fork or components or accessories have cosmetic blemishes. The frame if metal may have minor, aesthetic dings. Bicycle is free of major mechanical issues but may require some service, a tune up is recommended. Some parts may require replacing, not to include front or rear shocks, wheels, shifters, front or rear derailleurs, braking systems, crank set or chainrings. Items that may need to be replaced include: Braking surfaces may have minor grooves or discoloration. Suspension and brakes may need to be serviced. Fair The frame or fork or components or accessories have cosmetic blemishes. The frame if metal has minor, aesthetic dings. The bicycle has some mechanical issues and a tune up is necessary. An overhaul is recommended. Multiple parts need to be replaced. Suspension and brakes need to be serviced. Poor The frame or fork or components or accessories have many cosmetic blemishes. The frame if metal has numerous aesthetic dings. The bicycle has mechanical issues and a tune up is necessary. This bike could also be used for salvage.

Chapter 7 : Used Raleigh C40 (Hybrid) Prices & Deals

The Raleigh Comfort Bikes like the C40 are bottom-end bike-shop bikes. While not Wal-mart junk they are really not up to the task of being an everyday commuter for too many years -especially in a city like Chicago which has some of the worst streets in the civilized world due to neglect and a corrupt city machine.
