

**Chapter 1 : Roberto Sosa - IMDb**

*Born in 4 Jan and died in 8 Apr Hugoton, Kansas Roberto Sosa.*

En el gobierno de Francia le otorga el grado de Caballero en la Orden de las Artes y las Letras. Roberto Sosa es conocido internacionalmente como el poeta nacional de Honduras. Obras Poemas The return of the river: Editorial Universitaria Centroamericana, Nombres para una espada. Hasta el sol de hoy: Jim Lindsey, Princeton, NJ: Princeton University Press, Sin embargo, siempre me ha sostenido la idea de poder escribir lo vivido, lo que he vivido. Desde luego eso ha estado complementado con lecturas. Y uno de los problemas del ser humano es conocer la realidad. En este sentido, pues, el arte es forma: He tenido experiencias de la siguiente naturaleza: Es muy importante el intercambio de ideas con poetas de otras latitudes, con intelectuales ajenos a lo nuestro. Aun de los grandes escritores ha quedado muy poco. A lo mejor cinco o diez poemas, o un cero. Eso me permite ir elaborando unos textos que pudieran trascendentalizarse. De hecho lo he comprobado. Se descubre como un poeta, como un escritor. Y una vez que se descubre no puede tener la oportunidad de retroceder. Y si se descubre poeta, y se cultiva, el hecho se magnifica, por cuanto se puede convertir en un maestro. En eso estriba la respuesta. Era un autor que manejaba un realismo cruel, duro. Nos hace falta, por cierto, una novela del dictador. Bueno, se ha dicho muchas veces que Honduras es una novela sin novelistas. En cambio, tenemos muchos cuentistas. No tenemos el impulso como para haberla hecho. Y todo eso dentro de un sincretismo muy nuestro. Honduras se encuentra un poco aislado dentro del contexto centroamericano. Uno de nuestros grandes problemas es el problema educativo. Yo no lo creo, porque hay muchos niveles y desniveles dentro del alfabetismo. Entonces pasan al estatus de analfabetos totales. Hay aproximadamente colonias marginales, lo cual significa que esta ciudad es marginal. Muchas personas entienden esos textos. Si uno se pone a explicar cosas tan absolutamente transparentes, ya no hay nada que hacer con ese tipo de verdaderos sublectores.
