Lucie and Jamie meet on Ellis Island the day they arrive. Their connection is immediate, but they are separated before they even have a chance to exchange names. Lucie has come from Poland to join her brother, hoping for a better life than she had there. She gets a bit of a shock when she discovers that jobs are hard to find and the living conditions are deplorable. Jamie has come to America from Dublin, also looking for a better life. He has a dream of having his own architectural and construction business someday, but first has to find a way to make a living. He manages to fight for a position on a building site, but it comes at a price. As a result, Stefan refuses to give Jamie permission to call on Lucie. Stefan is still set in the old ways, where he has the right to dictate who Lucie can see. Lucie wants to embrace the ways of her new land, and when she has the opportunity to spend time with Jamie she takes it. She feels guilty about deceiving Stefan, but not enough to stop seeing him. I loved seeing the way that they used the time to really get to know each other. They also spent a lot of time sharing their dreams with each other. All of it was true to what was permitted at the time. The question becomes one of which is more important to him, his pride or the future they could have together. I loved seeing Lucie stand up for her dreams. I loved the realistic look at what life was like for new immigrants. The search for work and the prejudices they faced made the pursuit of their dreams so much harder. The difficulties of day to day life did much to kill the dreams of so many, but there were also those who kept their dreams alive. This book also showed the huge differences between the people with money and those who served them. The secondary romance of Stefan and Greta was sweet and heartbreaking.
