*Milligan's life story was popularized by Daniel Keyes's award-winning non-fiction novel *The Minds of Billy Milligan*. Biography. This section needs.*

This story appeared in the February issue of *Columbus Monthly*. In subdued tones, he told reporters: It was a tidy conclusion to a bizarre story. Flowers had just found year-old Bill Milligan not guilty by reason of insanity on nine charges of rape, aggravated robbery and kidnapping. For the trial of a man accused as the locally notorious "university rapist," in a case publicized nationally by the *New York Times*, the *Washington Post*, the *Detroit Free Press*, *Time* magazine, CBS and other media, the proceedings were remarkably low-key. It was a trial by stipulation, with written statements read uncontested by both sides. Attorneys read the statements in dry, sometimes almost inaudible voices. The contention of the defense, unchallenged by the prosecution, was that the real Bill Milligan, called an artistically talented man with the I. Instead, according to the testimony of psychiatrists, Milligan had been "asleep" for most of the last seven years, and the crimes actually had been committed by two other personalities who sometimes "take over and use his body. A male relative of one of the rape victims calls the multiple-personality theory "bullshit. Legally, Milligan could be set free-after some required conditions have been met-if, in the future, psychiatrists judge him to be sane. The law provides for a series of hearings in Probate Court on his sanity; the first one for Milligan will probably be in March, 90 days after his initial hearing. The law mandates another review in two years, and further reviews at intervals of two years. If at any time, however, psychiatrists where he is institutionalized believe him to be sane, they can send notifications to Common Pleas Court. If they receive no response, they can release him; if the court desires a hearing, one will be held in Probate Court, with Probate Court-appointed psychiatrists examining him. If they also find him sane he will be released. Students of the human mind do not always agree, and the Milligan case-indeed, multiple personality in general-is a subject of no little controversy within the profession of psychiatry. We are all actors. But there is only one person," he says. Cleckley of Augusta, Georgia, popularized the concept of multiple personality when he co-authored a book, *The Three Faces of Eve*, about one of his patients. But Cleckley says he thinks the Milligan ruling could set "a very dangerous precedent. Frederic Coplton, a Massachusetts psychiatrist who has treated and supervised cases of multiple personality. It [multiple personality] is just a dissociative state. He may not be conscious, and he may not remember it. But the press is usually responsible, too. Look at that article in *Time* [on Milligan]. They wrote it as if he had cancer or something, like it was fact," rather than theory. When interviewed by reporters, Kathy, who sat near Bill during the trial, seemed to fight for emotional control and said the years were "a horror. Other accounts had him actually buried alive and being "hung up in the barn by his fingers and toes. I just went out there to mow the lawn. One of the experts called into the Milligan case is Dr. Cornelia Wilbur of Lexington, Ky. Wilbur says that in a two-hour period, she saw four alternate personalities and Bill himself. The last was a brief interview. Wilbur recalls that the other personalities were worried that Bill was suicidal. They had to be persuaded "to let Bill wake up. Emanuel Berman is a former Yeshiva University professor who has treated multiple personality and wrote his doctoral thesis on the history and meaning of multiple personality; even Berman, a firm believer in multiple personalities, wrote that sometimes, "The analysts themselves unwittingly shaped the manifestations they were supposedly observing. Hervey Cleckley says that "hysterical personalities are like a child. When he does something that attracts attention, he tends to emphasize it. The dramatics of the multiple personality tends to appeal to hysterical types. Many who have claimed multiple personality are not very impressive. But Cleckley is also skeptical of anyone having five, 10 or 50 personalities. Although *Eve* later displayed another 19 personalities in further treatment with another psychiatrist, Cleckley says that he and *Eve* co-author Dr. Thigpen "were not familiar with those other personalities. Three of the rapes, all committed within two weeks prior to the arrest date, were remarkably similar. A woman would be approached near the OSU campus, taken at gunpoint to a rural area and raped. The rapist then forced the victims to use checks or credit cards to obtain cash. The victim would later be released without further harm, but the rapist would take her name, and perhaps those of some relatives. He

threatened retaliation if he was reported. Those and other items linked him to several rapes. A subsequent report based on their interviews found that "he [Milligan] has no genuine nor consistent understanding of his legal situation, nor of the charges against him. Moreover he is perceived as being unable to assist his attorney with his defense. He was reported to be very cruel to Mrs. Milligan and the children. On March 14, Judge Flowers found Milligan not competent to stand trial. Two days later Milligan was admitted to Harding Hospital in Worthington, where he was treated and examined by Dr. Assistant Franklin County Prosecutor Bernard Yavitch says that in accordance with court procedure, Harding initially "was appointed by the court at our suggestion. Yavitch adds, "He took a great deal of time. It was three and a half months before he reached a conclusion. More than a week before the Oct. Based on information from the defense, the press began to paint a sometimes unsubstantiated portrait of Bill Milligan. It was regularly reported as fact, for instance, that Bill had a genius I. Yet, in the written reports of tests administered by psychiatrists, the highest full-scale I. And although in many instances, psychiatrists were relying solely on the testimony of Bill, his versions of childhood incidents were repeated in print as fact. In fact, the whole "Billy Milligan image," had it been orchestrated by a PR man, would have been considered a masterful success. One observer said later, "He still looked like the same person. But his expressions, everything about him was different. He was unnerved, scared. But Milligan was allowed minor privileges in jail, and on Oct. Flowers signed a warrant on Oct. But officials demurred; they cited security problems, and were perhaps leery of housing someone labeled as the "campus rapist. Who would appear on that day in court? Would it be Bill Milligan or one of the alternate personalities? That question and others were provocative enough to attract reporters from far-flung national media. Asked if that and previous coverage had helped his case, Schweickart proved himself the master of understatement: But it was rescheduled for 9B, a larger chamber seating about Well before 9, cameramen hoping to photograph Bill Milligan or someone else associated with the trial milled in the ninth floor lobby. Inside, reporters idly scanned morning papers, exchanged inconsequential tidbits and speculated on what time the trial would start. All glanced repeatedly at the door leading to the small bright-yellow concrete block room where William Milligan was being held. But just past 10, Flowers, who had been disposing of other court matters, entered the courtroom. Almost simultaneously, Milligan was quickly escorted to his seat, next to lawyers Judy Stevenson and Schweickart. His beard was full, if somewhat ill-defined, and his dark hair, which hung down unevenly over his forehead, rambled backward until it curled over his collar. Somehow one ear had found its way to surface, as if to better hear the proceedings. After a couple of brief questions, Flowers ruled that Milligan understood the consequences of waiving his right to trial by jury. A more important, but hardly unexpected ruling, followed. Milligan was ruled to be entitled to be tried under the law as it existed at the time the crimes were committed. A new law that went into effect on Nov. Under the new law the defense must prove insanity by a preponderance of evidence. Under the old law, a greater burden was put on the prosecution to prove a defendant was not insane. Yavitch says, "Yes, we could have found psychiatrists to claim he was sane. But all the defense had to do was to raise the question of insanity. The court had already indicated which way it was inclined to rule. The question was, do we fight a losing battle? And we had some witnesses [the rape victims] who were reluctant to testify if the trial was going to turn into a media event. The trial resumed at Finally, nearing noon, attorneys for both sides read the stipulations. In that case count one of the charges , a woman was forced into a car near Naghten and North High streets and forced to perform oral sex. She later failed to identify Milligan positively in a police lineup, saying only that he "looked familiar. According to psychiatrists, the rapes were committed by Adelena, a curious lesbian.

His birth name was William, however he was also, Christene, Ragen, Arthur, and 21 others. He had 24 personalities. Some of his personalities were escape artists, con artists, and children like a three-year-old dyslexic girl. The majority of them were left-handed. A few spoke with foreign accents. A couple were female. One of them was capable of writing fluent Arabic. There was also a personality named Adalana. She was a lesbian, and the reason Milligan was arrested in October 1971 When he was only four-years-old, his depressed, alcoholic father committed suicide. From there, things only got worse. After his mother, Dorothy Sands, moved the family to Circleville, Ohio, in 1961, she married her ex-husband, only to later divorce him once more. In 1962, she went on to marry a man named Chalmer Milligan, and moved to Lancaster, California. According to psychiatric reports, Billy was repeatedly tortured and sodomized by his new stepfather, though he was never charged on any of those allegations. Doctors believed Adalana had kidnapped three women on different occasions from Ohio State University and raped them. The first rape was on Oct. 1971. Then, in 1972, he attracted national attention after being found not guilty by reason of insanity. Billy was the first person in U.S. history to be found not guilty by reason of insanity. Billy said that because of his case, perhaps fewer parents would abuse their kids. He went on to spend years being transferred in and out of mental hospitals before he was released in 1973, when experts discovered that his personalities had fused and was no longer harmful to society. For over 20 years, his whereabouts were largely unknown, except to his family, who never spoke a word about his location. Below, you can meet the 24 people who lived inside his head. These 10 personalities were the most noticeable and strongest of the 24. He was one of two personalities that could classify a person as an undesirable. He was right-handed, painted and played the drums. He was also the only personality that smoked cigarettes. Adalana is a lesbian who writes poetry and also admitted to raping three women. These personalities only appeared after Milligan was sent away to the mental hospital. She tried to convince Ragen to kill him. Jason is used to release tension for the others. Bobby is an adventurer with zero ambitions. Shawn never allowed to take the spot. He was four-years-old and deaf. Martin is a New Yorker who felt entitled. The Teacher was the sum of all 24 personalities.

*Billy Milligan can be anyone he wants to be except himself. Out of control of his actions, Billy Milligan was a man tormented by twenty-four distinct personalities battling for supremacy over his body—a battle that culminated when he awoke in jail, arrested for the kidnap and rape of three women.*

I have read this book twice and I have to say that it is one of the best books I have ever read. Billy Milligan William Stanley Milligan is the core personality. Arthur is a sophisticated Englishman. He is an expert in science and medicine. He is in "the spot when intellectual thinking is required. Ragen Vadascovinich is the "keeper of hate". Ragen is Yugoslavian, has a Slavic accent and he can write and speak in Serbo-Croatian. He controls the spot when danger is imminent. Allen is a con man and a manipulator. He is the most common person to talk to the outside world. He plays the drums and paints portraits. Also the only right-handed self. He is the only personality that smokes cigarettes. Tommy is the escape artist; he is often confused with Allen. He plays the tenor sax and is an electronics expert. He is also a painter, specializing in landscapes. Danny is afraid of people, especially men. He only paints still lifes, saying that this was because Chalmer made him dig his own grave and buried him in it. David, age eight, is the "keeper of pain". He comes to the spot to take the pain of the others. Christene, age three, was the one who would stand in the corner in school when "Billy" would get in trouble. She has dyslexia, but Arthur taught her to read and write. Ragen has a special bond with her. Adalana, a lesbian, cooks and cleans house for the others, and writes poetry. Phil is a thug and took part in planning some small time crimes. Has a Brooklyn accent. Marked due to him being a criminal. Kevin is a criminal planner; he helped devise a plan to rob a drug store. Labeled also because he is a criminal. He calls himself a big-game hunter and has an excellent sense of direction. Was often used as a spotter. He was labeled because he shot and killed a crow. Declared an Undesirable when she convinced Ragen to kill Chalmer. Luckily though Arthur was able to talk him out of it at the last second. Samuel is the Jewish person. He is the only one who believes in God. Mark is the workhorse. He is often referred to as the zombie because he does nothing unless he is told, and will stare at walls when bored. Steve is the impostor, he uses imitations for comedy. Steve never accepted that he was an MP. He was made to be undesirable because his comedy caused the family problems. Lee is the prankster and his practical jokes normally get the family into trouble. He does not care about consequences for his actions. He was made an undesirable because one of his jokes put them into solitary confinement. Jason is the pressure valve. He was used at the beginning to release tension for the family, but he caused them to get into too much trouble and was marked as an undesirable. Bobby always dreams of leading some adventure or fixing some global crisis, but he has no ambitions and was labeled due to that fact. Shawn, who is four and deaf, makes buzzing sounds so he can feel the vibration in his head. He was labeled an undesirable because there was no benefit from being deaf later on in life. Even though he is an undesirable he was never cast into the shadows beyond the spot; he was just never allowed to take the spot. Martin is a snob, from New York. He wants things just handed over to him without earning them. Timothy worked in a florist shop until he encountered a homosexual who flirted with him. He went into his own world after that. The Teacher, was by far the greatest milestone to helping Billy achieve fusion. There are several pictures in this novel of exquisitely detailed paintings his personalities created while he was incarcerated that simply dumb-founds me. I like this book because it is REAL. I strongly recommend this book to anyone who has ever wondered how far the human mind will go to protect itself.

William Stanley Milligan was born on 14th of February in He was one of the sons of American comic Johnny Morrison. Father committed suicide when the boy was 4. His mother, Dorothy tried to arrange her private life for several times until she got married to Chalmer Milligan in A new husband turned up cruel person who was inclined to violence and sadism. Billy Milligan in the childhood Researches consider that the William Milligan personality, better known under the shortcut name Billy, split at the age of 8, when his stepfather outraged him. Milligan was imprisoned for personalities that afterwards were entered the list of illicit persons. Billy lost control of the body at the age of 16, when he tried to attempt suicide for the first time. Arthur that was an expert and security official Ragen, being in his body, put down the main owner and made him sleep. After Billy fall a sleep,the number of active personalities increased. Two of them led Milligan to the prison for the first time: While being in prison the main dominant personality was a Yugoslav communist, Ragen Vadascovich, and after prison, this place took Englishman Arthur. These two persons decided who and when can stand on the spot. Billy Milligan When personalities were unconscious of mind, they slept, over watched or interacted with each other. Arthur and Ragen could prohibit one of the personalities and deprive to stand on the spot. Personality tried to piece out the lack of love and care this way. The arrest Of Billy Milligan Milligan was released on parole in However,a few months later he was arrested again for raping and robbing three students. Two of the victims identified him by photo, and then the suspect was taken into custody. Milligan underwent a psychological examination after suicide. Billy Milligan in court Billy Milligan was core personality. He spent most of his life asleep. Other individuals isolated him to save the life of the common body. The fact was that Billy constantly tried to commit suicide from the young age. Rape might not be a single case; there were other manifestations of violence by Chelmill Milligan against the stepson. Then April persuaded Ragen to kill her stepfather, because she could not do it herself. Intellectual Arthur hardly convinced Vadaskovich to leave his stepfather alive. The most famous were the love episodes of 16 year old Tommy and 18 year old Allen. Intimate relationships were forbidden for all male personalities of Milligan, because they could reveal his illness. The only female personality of Billy, Adalana, did not follow celibacy. This explains the chaotic change of personalities at the time of the attack and aggressive behavior of Adalana. After prison It must be noted that the psychiatry in the seventies was not so developed as well as nowadays. The doctors decided that Milligan suffered from acute schizophrenia. There were only few cases of multiple personality split, so additional examination was needed to make an accurate diagnosis. Modern psychiatry classified Milligan as a classic example of pathology. His story and photos were included in many training manuals on the theme of therapy and diagnosis of mental illnesses. Abused since childhood by a sadistic stepfather, Billy Milligan "went to sleep" and created twenty-three other personalities to cope with life. Many of the personalities expressed extraordinary talents for languages, medicine, or painting, while others were petty criminals and thieves whose crimes got the others into constant brushes with the law. Still others were children incapable of dealing with adult life. To control the chaos, three of the dominant personalities— Arthur, Ragen, and Allen —took over the major tasks, assigning each of the other personalities goals and duties based on their individual talents. Personalities who did not contribute or who were seen as threats to the stability of the whole were declared "undesirable" and banished from holding the consciousness. The Ten William Stanley Milligan: The original, unfused personality. Started life as a shy but brilliant boy who was gradually driven to suicide by abuse. The dominant personalities prevented him from killing himself and instead "put him to sleep. An aloof intellectual who studies science and medicine, he controls who gets to "take the spot" i. The Yugoslavian bodyguard who provides physical protection for the group, particularly for the children. Has Super Strength and controls the spot while Billy is in jail. A teen with a gift for machines and technology. He is allowed to use his criminal talents such as picking locks, dismantling doorknobs, and shedding straitjackets to insure that the others will never be held against their will. One of his few pleasures is his talent for drawing and painting. Another child personality, his role in the "family" is to deflect physical and emotional pain from the others by absorbing it himself. A sweet, pretty, assertive little girl. As she was the first personality to be created, the others have forbidden that Christene should ever be made Undesirable. Instead, they take pains to protect her and to make sure her behavior is safe and appropriate. A melancholic lesbian who craves love and affection , she is the only personality with the ability to "wish" control away from Arthur so that she can assume the consciousness whenever she likes—a fact of which the other personalities are not aware. A small-time thug with a strong Brooklyn accent, he had a talent for coming up with criminal schemes, which he and Kevin would then carry out. An Australian who fancies himself a big game hunter, he was banished for borrowing a gun for the safety of Billy and the children, only Ragen is allowed to handle weapons and shooting a crow an unnecessary death that distressed the children. His judgemental self-righteousness caused him to be banished, but he is allowed to assume consciousness only on Yom Kippur, so that he can fast and atone on the off chance that the body has a soul. Referred to by the others as "the workhorse," Mark handled monotonous labour for hours without complaint, but otherwise had no initiative of his own, only listlessly awaiting further instructions. An egomaniac who thought himself superior to others, often refusing to believe the other personalities existed or that he was the real main personality and the others were merely his alters. Arrogant and condescending, he was banished for exposing the group to danger in prison, where his attitude was not appreciated by the guards and other inmates. The pressure valve, Jason screams, rages, and throws tantrums to let off steam. His rage was deemed inappropriate to the group. A daydreamer who talked of his grand plans for self-improvement. In reality, he was too lazy to move beyond them to action. Arthur banished him for contributing nothing to the group. A deaf child, Shawn was presumed by the others to be mentally challenged and removed from consciousness for his and their safety. A snob and a braggart who put on airs and pretended to be a genius and a social climber in order to impress others. When a man made a sexual advance toward him, Timothy was so terrified that he voluntarily withdrew from the Real World. The system slowly spiraled out of control, finally shattering when "Billy" was arrested for the abduction and rape of three women. Adalana, a lesbian personality, claimed responsibility for the rapes. In a landmark decision, Milligan was found not guilty by reason of insanity, the first and only multiple ever to be found so in a felony case. Originally sentenced to a mental institution, legal arguments broke out as to whether he deserved prison for his crimes. Meanwhile, doctors frantically worked to fuse his personalities. During therapy, another personality, the Teacher, emerged as a fused "potential" of all the other personalities with uninterrupted memory. Milligan served his prison sentence and was released in Legal and

financial issues caused him to move to Japan. The Milligan Wars has not yet been released in the United States due to "Son of Sam" laws that prevent convicted felons from profiting from crimes by selling the rights to their stories. Ragen appears to have dominated the decision against integration, unable to believe that it would mean anything other than the "death" of the child personalities, and the group remained a collective. Milligan eventually returned to the States, where he died of cancer in Chalmer is a particularly horrifying example. Philip has a Brooklyn accent, and April has a Boston accent. Bruiser with a Soft Center: The other selves are aware of this and use the knowledge to defuse him before he hurts himself, especially by trotting out Christene. Even Christene herself manipulates Ragen of her own initiative to stop him from "doing bad things. Christene seems to have been created specifically to be a non-neurotic, lovable child who can interact with the world without the knowledge of the abuse shared by the others. David encounters a drag queen in a public restroom. Assuming that David was threatened, Ragen beats the man senseless. This inspires them to a short-lived crime spree specifically targeting homosexual men who in rural Ohio in the 70s would be unlikely to report the crimes to the police. Allen generally does all the talking for the "family", due to his fast-talking and sharp mind. Feminine Women Can Cook: When Billy is an adult, Adalana is the one tapped to do all the cooking for the group.
