Callie I cry myself to sleep and when I wake up, I feel different. Kayden's pressed up against me, with his arm around me, clinging onto me like I'm the most important thing to him in the world as he sleeps off his overwhelming day.

Now Kayden may be the one who needs saving It was easily one of my favorite books of And we all know it had one helluva cliffhanger! Well, it was worth the wait! I thought the sequel was fantastic. And it picked up right where the first book left off Callie is worried about Kayden. After finding him the way she did, she needs to see him. His mother evil is making it very difficult. My poor, damaged Kayden. Kayden is one of my favorite book boyfriends. Something about this guy just tugs on my heart. By doing that, he pushes away the people that matter most to him. Once they can get to the point where Kayden can trust Callie and open up to her, things were much better. I owe him that much. I owe him a lot I owe him everything. There is something about someone trusting you enough with their secrets that it makes it easier to trust them. The thing about Callie and Kayden that I love so much is that they both are broken. They both are tortured souls with traumatic pasts. They both have a ton of issues. Separate, they are kind of a mess. Perfect for one another. I realize how perfect we are for each other and also how disastrous we could end up being. Because even though we can help each other pick up the pieces of our lives, we could also break at the same time and then nothing would be left to catch us as we crumble. He has people he can trust. That want to be there for him. All he wants is for Callie to be happy. Whenever she looks at me, I swear she steals another piece of my soul. She owns me and I want nothing more than to be with her. But to truly be able to move on and get over their past, they have to confront it. You just move past it. Be who you are supposed to be instead of who they make you feel like you should be. As long as they are in it together, they can do it. We can do this. She is always there for the ones she loves, and her strength. She is so strong in this book. She is there for him. Gets him to open up and move on. My beautifully broken boy. A beautiful and emotional story of love, hope, healing, freedom, moving on and learning to give and accept love. A solid 5 star read for me.

I want to feel alive again. I hear every sound, every laugh, every cry. Lights flash as ambulances drive up under the port and the glow reflects off the rain on the ground, red, like blood. My stomach is empty. My heart is hurting. He has to be. Sure, his wounds and broken bones may heal on the outside. On the inside, though, the healing will take longer, and I wonder what Kayden will be like when I see him again. Who will he be? Seth starts talking to the receptionist behind the counter, but she barely gives him the time of day as she multitasks between phone calls and the computer. His family, the people who hurt him. I almost ask her the same thing. I told you this a few days ago. Everyone in the crowded waiting room is shocked. I keep running until I find a cluster of bushes around the back of the hospital, and then I fall on my knees and throw up all over the mud. My shoulders shake, my stomach heaves, and tears sting at my eyes. When my stomach is empty, I fall back on my heels and sit down in the wet dirt. What if he did? Kayden I open my eyes and the first thing I see is light. It burns my eyes and makes my surroundings distorted. Then I hear the deep voices, clanking, chaos. My body is coldâ€”numb, like the inside of me. I open and close my eyelids repeatedly and then roll my eyes back into my head. I unhitch my jaw and force my lips to move. Her eyes are colder than I expected and her lips are pursed. What is wrong with you?

Jessica Sorensen Her head falls against her knees and she starts to sob, her body heaving. I slide my arms underneath hers and then steer her back with me as I lean against the headboard. I listen to her cry and it matches with the rhythm of my heart. I feel how much I want herâ€”need her. I feel how much she means to me. I feel the pain that coexists with my feelings for her. I feel how much I want to live and be with her. My heart opens up and I feel it all. Callie I cry myself to sleep and when I wake up, I feel different. I also feel lighterâ€”braver. I want to be free from the one thing that still pushes me down. I want to tell my family about Caleb, not just because I want them to know, but because I want to free Kayden from the burden of letting his father buy Caleb off. Then maybe Kayden and I can move forward, together, with a little less weight on our shoulders. I decide to check my voicemail but give up after the fifth repetitive message and switch to texts. Skimming through them, I come across one that catches my attention. You run off with those boys who are nothing but trouble. You need to come home and side with this family. I drop the phone and get out of bed. I get dressed in jeans, a long-sleeved thermal shirt, and my coat. I write Kayden a note and leave it by the pillow. Love, Callie I slip my shoes on and then sneak out the door, letting him sleep. Besides, after that message, I know my mom will attack him the moment he steps foot in the house. This is all your fault, Callie. I keep walking, quickly and determinedly, one foot in front of the other until I reach my house. You better keep quiet. The curtains are open and the steps have been sprinkled with blue salt. One foot in front of the other. I open the side door and stand in the doorway, taking in the overwhelming memories rising in my head. Come with me for a second, he says. I have a present for you, and I skip after him, excited. My mom turns from the sink. Her skin is bare of makeup and she has a pair of slacks and a pink sweater on. I look at the photos around the room, the ones with our family and some even with Caleb. I was eight and I was happy. He tracks to where I point and then a smile turns up at his lips.
