

UNTOLD LOVE STORY: i was a boy who hate reading and studying in school life. i still remember that my friends in the school use to wait for the library period.

Nobody knows what happened to him before that; before he made it to the Indian cricket team. So, it was relatively easy to revisit that life. Then, after a few years, Dhoni was at an airport when a child approached him and asked him a question on motivation. Dhoni sat down with the young boy and spent 5 minutes answering the question. His manager, Arun Pandey, asked why he spent that much time and Dhoni replied how his answer was pivotal in benefiting and motivating the boy. This incident then prompted Pandey to make a film about him saying [to Dhoni] that his story has the power to motivate millions of children like him. Show me as I am. Pandey recruited a team of researchers who collated data and background information while the director was busy directing *Baby*. Their first meeting took place in Delhi during a cricket match. During their sporadic meetings, Pandey chose not to record and tape their conversations which prompted Dhoni to open up more. The team undertook two years of research on the various incidents and how they took place. Pandey says "such authenticity would be hard to find even in Hollywood. Pre-production Neeraj Pandey was in the midst of shooting *Baby* when Arun Pandey, the manager of Dhoni, offered him an opportunity of making a biopic based on Mahendra Singh Dhoni. It was only after meeting Dhoni personally " during the second schedule of *Baby* " that he was convinced to helm the film. Although, to him, he treated the project not as a biopic, but more as an inspiring story. But he does have a predilection for cricket and other renowned cricketers like AB de Villiers and Sachin Tendulkar. He explained how not being a fan helped him direct the movie impartially, "I think if you are fan, as a director it would be difficult to be objective and impartial. A fan would only see positives. Even negatives will look like positives for him. So not being a fan helped me direct the movie impartially. He would clear any doubts of the director and Rajput. Rajput was always his first choice given how both Dhoni and Rajput hail from the same part of India, which made it easy for him to get the dialect right and the fact he has a predilection for sports like Dhoni. He said that he did not pretend to be Dhoni, but actually felt like the cricketer while essaying the title role. In order to prepare for his role, he had to go through an exhaustive prolonged training for a period of 18 months before shooting began and watched his videos for hours, to a point that he subconsciously started picking up some of his traits. It took a further six months for Rajput to feel confident that he looked and played like Dhoni. Shooting also took place at Kharagpur railway station where Dhoni once worked as a Travelling Ticket Examiner TTE, his old school, Jawahar Vidya Mandir and at the quarter number of Mecon Limited he shared with his four roommates while studying engineering. The filmmakers were also shown his former social hangout as well as introduced to the food he liked eating whilst growing up. The *Untold Story* received the widest release for a Bollywood film receiving a day-and-date release both in India and internationally in a total of 61 countries across approximately 4, screens worldwide on the week ending October 2, This was because Fox had wanted to release the film on the same day-and-date but a dubbed version in the two aforementioned languages could not be produced at that time. This was because Amey Khopkar, chief of Chitrapat Karmachari Sena, the film affairs wing of regional political party Maharashtra Navnirman Sena told the filmmakers that releasing the film in the language would cause unfair competition for regional movies by giving rise to a scenario where more filmmakers will release Hindi films dubbed in Marathi, prompting Pandey to scrap the plan. According to Vijay Singh, that marks the biggest-ever release for a Hindi film in Tamil and Telugu and one of the widest for any Indian film internationally. Through a chain of distributors the film also went out in non-regular Bollywood territories such as Japan, Spain, France, Hungary, Poland, the Philippines and the West Indies. There is no way to give each year its allotted weight, to include each event, each person who helped to shape a lifetime. Lagaan, but one does "have to be a cricket fan, and an indulgent one at that" for M. She found the term "hagiographic" unfit for the film and labelled the film as "long and languid. Dhoni " his enigmatic character and what marked him as a great captain " by reading about him after watching this movie than I did during three long hours.

*Joni and Ken: An Untold Love Story [Ken Tada, Joni Eareckson Tada, Larry Libby] on racedaydvl.com *FREE* shipping on qualifying offers. God's Immeasurable Grace. It's the most important ingredient for the perfect love story.*

Why would an able-bodied Ken fall for a severely disabled Joni? It would be one thing to continue loving someone through disabilities, but to choose such a lifestyle is another. Ken makes a cameo appearance in her talks, but not usually the focus. Only, none of the books have held his name on the title to permit such a spotlight. We see their romance solidify to love and their young excursions overseas Behind the Iron Curtain. We see them transition into married life where love is put to the test with daily routines most of us will never face save for the few final years on earth. Love is present, yes, but so is the daily grinds of disability and the agony of chronic pain. We see his heart grow tender towards Joni through her first broken bone and stage three cancer diagnosis. It is in these pivotal moments where Ken realizes the truth in the Wild at Heart movement: Ken finds that even his strong-willed wife desires to be rescued. The story is told from a third-person point of view. It initially felt unusual to deviate away from the traditional first person POV, but after the pages peeled back, I gained a new appreciation of the shift in perspective. It truly reads like a story of two beloved protagonists. There were a number of readers who complained about the inconsistent time line in the book: Whenever there was a jump to or from a certain time, it was purposeful- to explain something essential in the story. This is another one of those books I will revisit- for the truths found in their challenges still relate to the able-bodied. I had my husband read the last few pages of the book written by Joni herself entailing such sweet edification and encouragement for marriages. I will leave you with two quotes: But what if it were as close as the hand of your spouse? That would make for a contented and happy marriage. Get out the candles and the china. Walk under the stars. Quit resisting and start affirming. I wrote this review last fall, before I thought I would even need the support of a caregiver. This caregiver was providentially provided in the form of my loving husband who I once confused as superman, but I forgot that even superman has his kryptonite. He has been worn out, spinning with emotions that still have not been processed, and still more to add to the list. Perhaps God prepared me for what was next in this crazy journey of life last fall.
