Search - List of Books by Rudyard Kipling "For the female of the species is more deadly than the male. Kipling was one of the most popular writers in English, in both prose and verse, in the late 19th and early 20th centuries. The author Henry James said of him: Among other honours, he was sounded out for the British Poet Laureateship and on several occasions for a knighthood, all of which he declined. A young George Orwell called him a "prophet of British imperialism". According to critic Douglas Kerr: But as the age of the European empires recedes, he is recognised as an incomparable, if controversial, interpreter of how empire was experienced. That, and an increasing recognition of his extraordinary narrative gifts, make him a force to be reckoned with. There is too much Asia and she is too old. I urgently desire never to see it again. It is inhabited by savages. Children tell little more than animals, for what comes to them they accept as eternally established. Alice Kipling one of four remarkable Victorian sisters was a vivacious woman about whom a future Viceroy of India would say, "Dullness and Mrs. Kipling cannot exist in the same room. The couple, who had moved to India earlier that year, had met in courtship two years previously at Rudyard Lake in Rudyard, Staffordshire, England, and had been so taken by its beauty that they now named their firstborn after it. His most famous relative was his first cousin, Stanley Baldwin, who was Conservative Prime Minister three times in the s and s. Mumbai historian Foy Nissen points out however that although the cottage bears a plaque stating that this is the site where Kipling was born, the original cottage was pulled down decades ago and a new one built in its place. The wooden bungalow has been empty and locked up for years. In November , it was announced that his birthplace in the campus of the J J School of Art in Mumbai will be turned into a museum celebrating the author and his works ref under Legacy below. He completed his college education in St. Xaviers College in Mumbai. Of Bombay, Kipling was to write: Mother of Cities to me, For I was born in her gate, Between the palms and the sea, Where the world-end steamers wait. According to Bernice M. Complex issues of identity and national allegiance would become prominent features in his fiction. As was the custom in British India, he and his three-year-old sister, Alice or "Trix" , were taken to England The two children would live with the couple, Captain and Mrs. Holloway, at their house, Lorne Lodge, for the next six years. In his autobiography, published some 65 years later, Kipling would recall this time with horror, and wonder ironically if the combination of cruelty and neglect he experienced there at the hands of Mrs. Holloway might not have hastened the onset of his literary life: If each contradiction be set down as a lie and retailed at breakfast, life is not easy. I have known a certain amount of bullying, but this was calculated torture Yet it made me give attention to the lies I soon found it necessary to tell: Holloway apparently hoping that Trix would eventually marry the Holloway son. The two children, however, did have relatives in England they could visit. They spent a month each Christmas with their maternal aunt Georgiana "Georgy" , and her husband, the artist Edward Burne-Jones, at their house, "The Grange" in Fulham, London, which Kipling was to call "a paradise which I verily believe saved me. Kipling remembers, "Often and often afterwards, the beloved Aunt would ask me why I had never told any one how I was being treated. Also, badly-treated children have a clear notion of what they are likely to get if they betray the secrets of a prison-house before they are clear of it". During his time there, Kipling also met and fell in love with Florence Garrard, a fellow boarder with Trix at Southsea to which Trix had returned. Towards the end of his stay at the school, it was decided that he lacked the academic ability to get into Oxford University on a scholarship and his parents lacked the wherewithal to finance him; consequently, Lockwood Kipling obtained a job for his son in Lahore now in Pakistan , where Lockwood was now Principal of the Mayo College of Art and Curator of the Lahore Museum. He sailed for India on 20 September and arrived in Bombay on 18 October He described this moment years later: Other Indian-born boys have told me how the same thing happened to them. After these,

my English years fell away, nor ever, I think, came back in full strength". Kipling was worked hard by the editor, Stephen Wheeler, but his need to write was unstoppable. In , he published his first collection of verse, Departmental Ditties. That year also brought a change of editors at the newspaper. Kay Robinson, the new editor, allowed more creative freedom and Kipling was asked to contribute short stories to the newspaper. During the summer of , Kipling visited Simla now Shimla , well-known hill station and summer capital of British India. By then it was established practice for the Viceroy of India and the government to move to Simla for six months and the town became a "centre of power as well as pleasure. He returned to Simla for his annual leave each year from to , and the town figured prominently in many of the stories Kipling was writing for the Gazette. Kipling describes this time: It began in heat and discomfort, by rail and road. His writing continued at a frenetic pace and during the following year, he published six collections of short stories: In early , The Pioneer relieved Kipling of his charge over a dispute. For his part, Kipling had been increasingly thinking about the future. He decided to use this money to make his way to London, the centre of the literary universe in the British Empire. In the course of this journey he met Mark Twain in Elmira, New York, and felt much awed in his presence. Kipling then crossed the Atlantic, and reached Liverpool in October He also found a place to live for the next two years: Meantime, I had found me quarters in Villiers Street, Strand, which forty-six years ago was primitive and passionate in its habits and population. The Charing Cross trains rumbled through my dreams on one side, the boom of the Strand on the other, while, before my windows, Father Thames under the Shot Tower walked up and down with his traffic. In the next two years, and in short order, he published a novel, The Light that Failed; had a nervous breakdown; and met an American writer and publishing agent, Wolcott Balestier, with whom he collaborated on a novel, The Naulakha a title he uncharacteristically misspelt; see below. In , on the advice of his doctors, Kipling embarked on another sea voyage visiting South Africa, Australia, New Zealand and once again India. On 18 January , Carrie Balestier aged 29 and Rudyard Kipling aged 26 were married in London, in the "thick of an influenza epidemic, when the undertakers had run out of black horses and the dead had to be content with brown ones. Henry James gave the bride away. United States The couple settled upon a honeymoon that would take them first to the United States including a stop at the Balestier family estate near Brattleboro, Vermont and then on to Japan. However, when the couple arrived in Yokohama, Japan, they discovered that their bank, The New Oriental Banking Corporation, had failed. Taking their loss in their stride, they returned to the U. Carrie by this time was pregnant with their first child According to Kipling, "We furnished it with a simplicity that fore-ran the hire-purchase system. We bought, second or third hand, a huge, hot-air stove which we installed in the cellar. We cut generous holes in our thin floors for its eight inch tin pipes why we were not burned in our beds each week of the winter I never can understand and we were extraordinarily and self-centredly content. It chanced that I had written a tale about Indian Forestry work which included a boy who had been brought up by wolves. After blocking out the main idea in my head, the pen took charge, and I watched it begin to write stories about Mowgli and animals, which later grew into the two Jungle Books ". Kipling named the house "Naulakha" in honour of Wolcott and of their collaboration, and this time the name was spelled correctly. From his early years in Lahore 1877 , Kipling had become enthused by the Mughal architecture especially the Naulakha pavilion situated in Lahore Fort, which eventually became an inspiration for the title of his novel as well as the house. The collection of Barrack-Room Ballads, first published individually for the most part in , which contains his poems "Mandalay" and "Gunga Din" was issued in March He especially enjoyed writing the Jungle Books The writing life in Naulakha was occasionally interrupted by visitors, including his father, who visited soon after his retirement in , and British author Arthur Conan Doyle, who brought his golf-clubs, stayed for two days, and gave Kipling an extended golf lesson. Kipling seemed to take to golf, occasionally practising with the local Congregational minister, and even playing with red painted balls when the ground was covered in snow. He described this moment in a letter: Next morning there was an answering signal from the swamp where the sumacs grow. Three days later, the hill-sides as fast as the eye could range were afire, and the roads paved, with crimson and gold. Then a wet wind blew, and ruined all the uniforms of that

gorgeous army; and the oaks, who had held themselves in reserve, buckled on their dull and bronzed cuirasses and stood it out stiffly to the last blown leaf, till nothing remained but pencil-shadings of bare boughs, and one could see into the most private heart of the woods. By this time, according to several biographers, their marital relationship was no longer light-hearted and spontaneous. Although they would always remain loyal to each other, they seemed now to have fallen into set roles. By the early s, the United Kingdom and Venezuela had long been locking horns over a border dispute involving British Guiana. Several times, the U. This raised hackles in the UK and before long the incident had snowballed into a major Anglo-American crisis, with talk of war on both sides. Although the crisis led to greater U. He wrote in a letter that it felt like being "aimed at with a decanter across a friendly dinner table. A family dispute became the final straw. For some time, the relations between Carrie and her brother Beatty Balestier had been strained on account of his drinking and insolvency. In May , an inebriated Beatty ran into Kipling on the street and threatened him with physical harm. In July , a week before the hearing was to resume, the Kiplings hurriedly packed their belongings and left Naulakha, Vermont, and the U. Devon Back in England, in September , the Kiplings found themselves in Torquay on the coast of Devon, in a hillside home overlooking the sea. Although Kipling did not much care for his new house, whose design, he claimed, left its occupants feeling dispirited and gloomy, he managed to remain productive and socially active. Kipling was now a famous man, and in the previous two or three years, had increasingly been making political pronouncements in his writings.
