Trim has found an old pair of jack-boots useful as mortars. Most of the action is concerned with domestic upsets or misunderstandings, which find humour in the opposing temperaments of Walter's splenetic, rational, and somewhat sarcastic and Uncle Toby, who is gentle, uncomplicated, and a lover of his fellow man. Though Tristram is always present as narrator and commentator, the book contains little of his life, only the story of a trip through France and accounts of the four comical mishaps which shaped the course of his life from an early age. At the very moment of procreation, his mother asked his father if he had remembered to wind the clock. The distraction and annoyance led to the disruption of the proper balance of humours necessary to conceive a well-favoured child. Susannah mangled the name in conveying it to the curate, and the child was christened Tristram. Finally, as a toddler, Tristram suffered an accidental circumcision when Susannah let a window sash fall as he urinated out of the window because his chamberpot was missing. The first to note them was physician and poet John Ferriar, who did not see them negatively and commented: One passage Sterne incorporated pertains to "the length and goodness of the nose". Ridiculing solemnity [edit] Sterne was no friend of gravitas, a quality which excited his disgust. Tristram Shandy gives a ludicrous turn to solemn passages from respected authors that it incorporates, as well as to the consolatio literary genre. His book consists mostly of a collection of the opinions of a multitude of writers he modestly refrains from adding his own divided into quaint and old-fashioned categories. It discusses everything, from the doctrines of religion to military discipline, from inland navigation to the morality of dancing schools. Burton indulges himself in a Utopian sketch of a perfect government in his introductory address to the reader, and this forms the basis of the notions of Tristram Shandy on the subject. Pope and Swift were major influences on Sterne and Tristram Shandy. Through time, it has come to be seen as one of the greatest comic novels in English. Brockhaus offering to translate it into German an offer which Brockhaus rejected. Tristram Shandy did not last. The medieval structure still stands today, and is under the care of the Laurence Sterne Trust since its acquisition in the s. The gardens, which Sterne tended during his time there, are daily open to visitors. There is a strange coincidence, Sancho, in the little events as well as in the great ones of this world: The movie plays with metatextual levels, showing both scenes from the novel itself and fictionalised behind-the-scenes footage of the adaptation process, even employing some of the actors to play themselves. References to Tristram Shandy [edit] Well known in philosophy and mathematics, the so-called paradox of Tristram Shandy was introduced by Bertrand Russell in his book *The Principles of Mathematics* to evidentiate the inner contradictions that arise from the assumption that infinite sets can have the same cardinality [33] "as would be the case with a gentleman who spends one year to write the story of one day of his life, if he were able to write for an infinite length of time. The paradox depends upon the fact that "the number of days in all time is no greater than the number of years". The home was named after the house described in *Tristram Shandy*. The Perry Mason episode "The Case of the Bogus Books" involves a bookseller selling stolen copies of rare books, in particular a first edition of *Tristram Shandy*. In *Surprised by Joy*, C. Lewis refers to *Tristram Shandy* in the context of trying to describe his interactions with his own father: On second thoughts I am content that they should. It is only in a Shandean spirit that my matter can be approached. In the film *The Missouri Breaks*, with Marlon Brando and Jack Nicholson, Braxton, a rancher, has just hanged an alleged cattle rustler without a trial and is defending himself to his daughter who vehemently disproves of the hanging. Finishing his justification he prepares to relax in his library and asks his daughter to fetch him his copy of *Tristram Shandy*.

Jack copies the return address on the letter and writes a letter to his Uncle Stephen in which he exaggerates his terrible life in Chinook and begs Stephen to bring him and Rosemary to Paris. Uncle Stephen writes back that, regrettably, he is unable to rescue Jack and his mother, but that he will do all he can to help them. Stephen suggests that once Rosemary has managed to leave Dwight, Jack will move back in with her. Both Jack and Rosemary approve of the plan. Dwight cannot wait to have Jack out of the house, and Jack cannot wait to leave. Jack is scheduled to leave for Paris as soon as he finishes seventh grade, but Uncle Stephen writes again with a different plan. In this second plan, Jack will live in Paris for five years, rather than just one. Jack will also have to change his last name, however, as Uncle Stephen will only allow Jack to come stay with him if he can legally adopt Jack as his son. Rosemary thinks this is a generous gesture, but Jack is unsettled by the idea of being adopted. Jack already has one mother and does not want another, even if being adopted means leaving Chinook and moving to Paris. Chapter 7 On Christmas, Dwight covers the tree with three cans of white spray paint and ruminates on his admiration for the composer and musician Lawrence Welk, who Dwight once met on a train. Out of nowhere, Norma decides to marry a man named Kenneth. Norma says that Bobby Crow, her high school sweetheart, is going nowhere. Kenneth is very religious and tries to push his beliefs on everyone. He kisses Norma in front of the entire family and accuses Dwight of being an alcoholic. Years later, Rosemary divulges to Jack that Kenneth made a pass at her. During dinner one night, Bobby Crow arrives to speak to Norma. They speak outside for a long while, and when Norma comes inside, she is bawling. It is evident that Norma does not love Kenneth, and Dwight pleads with her not to marry him. Regardless, Norma marries Kenneth and bears him a child. When Jack goes to visit her, she looks tired and aged. When Jack sees Bobby Crow about a year later and says hello to him, Bobby viciously demands to know who Jack is talking to. On Christmas Eve, Dwight remembers the chestnuts that he ordered Jack to shuck over two years ago, and tells Jack to retrieve them from the attic. When Jack finds the chestnuts, they are covered in mold, as is the beaver that Dwight ran over years before. Analysis Wolff tells his story with several deliberate series of events, the purpose of which is to emphasize the transformation that each character undergoes as he or she matures. This chronology is best exemplified in Chapters 6 and 7, where the changes in character, time, and situation are more drastic than they are in most other sections of the memoir. Norma, for example, seems to change almost overnight from a sprightly young woman into a morose and weary shadow of her former self. She marries out of desperation, and in doing so, surrenders her bright and hopeful self. Bobby Crow also seems to mutate into an entirely different being.
