Warriors of Heaven and Earth: Original Motion Picture Soundtrack was released on CD featuring 14 tracks, which include excerpts from the score and 1 theme song, "Warriors in Peace", sung by Taiwanese singer Jolin Tsai.

This book sheds new light on the powerful and majestic celestials, guardians of the Upper Planes and empyreal enemies of evil. Players can design their own celestial characters and take the fight to those denizens of darkness, the fiends! This accessory includes the following: All of the information you need to design and play celestial characters: Celestial Beings and Places. Detailed information on various key players and sites throughout the Upper Planes. New spells and magical items for celestial characters. Techniques for running campaigns with celestial characters on the Upper Planes and the Prime Material Plane. It was published in September Planescape began with the Planescape Campaign Setting boxed set and continued through final supplements *Faction War* and *The Inner Planes*, after which *Wizards of the Coast* brought the line to the end. There would be just two sourcebooks in this post-Planescape era: *Warriors of Heaven* and *A Guide to Hell*. Still, the Planescape setting is acknowledged in *Warriors of Heaven*; for example, there are some short details on how the Celestials relate to the Blood War. At first, the plan was to post this bonus material to www.wizards.com. However, people still liked the idea of a web-enhanced product, so Perkins was asked to write yet more material. That material can still be found at wizards.com. As the name of this sourcebook suggests, *Warriors of Heaven* focuses on a host of angelic beings. Most early references were unofficial articles in *Dragon* magazine. Expanding the Outer Planes. All told, *Warriors of Heaven* includes extensive details on six different races of angelic beings. There are about eight pages of detail per race—which is a pretty big expansion relative to what had been available before. The races described include two immortal races, the aasimon and archons; and four mortal races, the aasimar, asura, eladrin, and guardinals. The aasimon are the traditional angels—the devas, planetars, and solars. This was where they were first named the aasimon. The archons are another sort of divine creature that appeared as denizens of the Seven Heavens later: *Expanding Many Game Worlds*. Appendix II describes how many gods—including those of the *Forgotten Realms*, *Greyhawk*, *Krynn*, and *Mystara*—fit in with the planes described in this book. The appendix is not necessarily canon for those settings, but it is useful if you want to mix things up. *Book of Exalted Deeds* for 3e touched upon a few Celestial issues, as related to good characters. However, the best Celestial reference in more recent years has probably been *Chronicles of the Righteous* for *Pathfinder*. Please feel free to mail corrections, comments, and additions to shannon. "Warriors of Heaven" presents the celestial races in a manner that is both flat and without controversy. One of the highlights of the Planescape setting has always been that no one--particularly not the "authoritative" authors of official products--knows the whole story of the planes--they are simply too vast.

Maribel Langley-Van Keulen, a Filipino-American journalist sent you a long and open letter together with certified true copies of evidentiary papers proving her claim. Please find a copy of her letter attached, entitled: Witnesses, human rights advocates, journalists, priests and clergymen have also been murdered to prevent exposure of these crimes. The previous Arroyo administrations and her allies continue to deny these alleged extra-judicial killings and mass murder. Van Keulen also wrote: Like me, Ivler is a US war veteran who risked his life several times fighting for America and the American people. Ivler, a former US Ranger was subjected to a national man hunt in the Philippines. The tri-media of the Philippines condemned Ivler. The media was paid to state that he was guilty of a crime he did not commit, and before any trial. No assumption of innocence was ever accorded. Ivler was gunned down. He suffered from 3 gun-shot wounds including a bullet from an M16 that pierced his body. Despite the fact that he had fallen, the NBI agents continued to torture him in the presence of his mother. One NBI agent kicked him in his gut aiming at his open wound where his intestines were exposed. The same Filipino officials later dragged a bleeding Ivler like an animal up and then down long flights of stairs. Finally, these law enforcers threw the body of Ivler into a vehicle as if he were a dead pig. The entire incident was recorded on film by TV crews. The general public was unaware that the Arroyo regime had long set their sights on killing Jason Ivler and his mother, Marlene Aguilar. Today Jason Ivler sits in a dirty jail in Quezon City, a jail built to house inmates that holds over 3, He has sat in that jail for over 6 months suffering from infected gunshot wounds and with 2 parts of his intestines exposed to the humid, fetid air. This is a jail that cannot even supply sterilized gauze, let alone any proper medical treatment. Since the time of his detention Ivler has never received any proper medical attention. And the government continues to prevent him from going to hospital to receive medical care and the surgery that would restore his intestines. However, the younger generations of Filipinos came to our rescue and have supported us ever since the day the NBI agents raided my home, the day my son and I were arrested. Since then, I have received countless mail from people all over the world showing their support and sympathy for me and my son. Today Jason Ivler has become an icon of hope and courage for the Philippines. He has a Face book fan page with over 70 thousand supporters representing over 23 countries, and we are growing stronger as time passes, getting an average of supporters a day. So many poems, songs, videos, T-shirt designs and other graphic images have been created to honor Ivler and criticize my government. Please find photos attached. Soon after my son was put in jail, I marched everyday from my home in Blue Ridge to the Quezon City Hall of Justice showing my protest. Because of this, he also received death threats, one of which he reported to the authorities. One day, while leaving my village, someone attempted to kill Charlie. A fast-running vehicle tried to run him over. Never, since the days of General Douglas Mc Arthur, has an American soldier stood as a beacon of hope and courage for my people. That is what Jason Ivler is to tens of thousands of Filipinos today. Jsin, as his fans call him, has become a cult phenomenon in the Philippines. And so I speak to you, not only as the mother of Jason Ivler, but also as the mother of over 70 thousand souls, the majority of whom represent the young and future generation of Filipinos, my soul children. After all, the incident that happened to us was so well exposed in the tri-media of the Philippines, so much so that today, my son and I have become household names. Thomas doing in my country? Should I then assume that like Mr. Please allow me to go on with my letter. We have been ruled by a government that is unjust for over ten years. That was the government of Gloria Macapagal Arroyo and her cronies. We have been ruled by a government that murders its own citizens en masse. We have been ruled by a government whose high ranking officials were and still are the same men running organized crimes of kidnapping, car napping, human trafficking, illegal gambling, and trading illegal arms and drugs. My people have lived in the dark ages for over ten years and this continues to this very day. My son, Jason Ivler is only one of countless of people who fell victim to my evil government. Robert Gates to do what is just and protect

the human rights of Jason Ivler from the vultures and beasts in the Philippines, those in the guise of government officials. Denounce the existence of my corrupt, criminal and murderous government. We will not survive as a nation if my evil government is allowed to continue.
